

INDUSTRIES & MARKETS

Cleantech in India

Table of Contents

01 Overview

Greenhouse gas emissions worldwide 2023, by country	
Annual change in clean energy deployment worldwide 2024, by key technology	
Global energy transition investments 2024, by leading country	
Renewable energy capacity worldwide 2024, by country	
Share of clean energy technologies manufacturing 2023, by region	

02 Deployment

Renewable energy capacity in India 2009-2024	
Installed renewable energy capacity India 2025, by region	
Solar energy capacity in India 2009-2024	
Installed wind energy capacity in India 2009-2024	
Number of electric vehicles sold in India 2019-2024, by type	
Penetration of electric vehicles in India 2014-2023	

03 Manufacturing

India solar PV module and cell manufacturing capacity H1 2024	
Solar PV module production capacity in India 2023, by region	
Solar PV module production capacity in India 2023, by company	
Wind turbine annual manufacturing capacity in India 2024, by vendor	
EV battery production capacity per year in India 2023, by OEM	

Cleantech manufacturing cost difference in India vs China 2023, by technology	22
---	----

04 Trade

04		
05		
06	Import and export value of solar PV modules in India FY 2021-FY 2023	24
07	Import and export value of wind generators in India FY 2020-FY 2023	25
08	Import and export value of lithium-ion batteries in India FY 2020-FY 2023	26
	Production & demand of key clean technologies in India 2023, by type	27

05 Finance

10		
11	Global share of VC funding in climate technology 2022-2023, by region	29
12	Climate tech venture funding in India 2018-2023	30
13	Climate tech VC funding in Bengaluru India 2018-2023	31
14	Climate tech VC funding in Mumbai India 2018-2023	32
15	Clean energy innovation & manufacturing investment pipeline in India 2023, by segment	33

06 Outlook

17	Global clean technologies market size 2030, by country and region	35
18	Solar power capacity installations and targets in India 2018-2030	36
19	Battery energy storage system capacity in India 2024-2030	37
20	Passenger EV battery demand in India 2023-2035	38
21	Lithium-ion battery production capacity in India 2023-2030	39

Table of Contents

India clean energy tech capacity projections 2030, by product

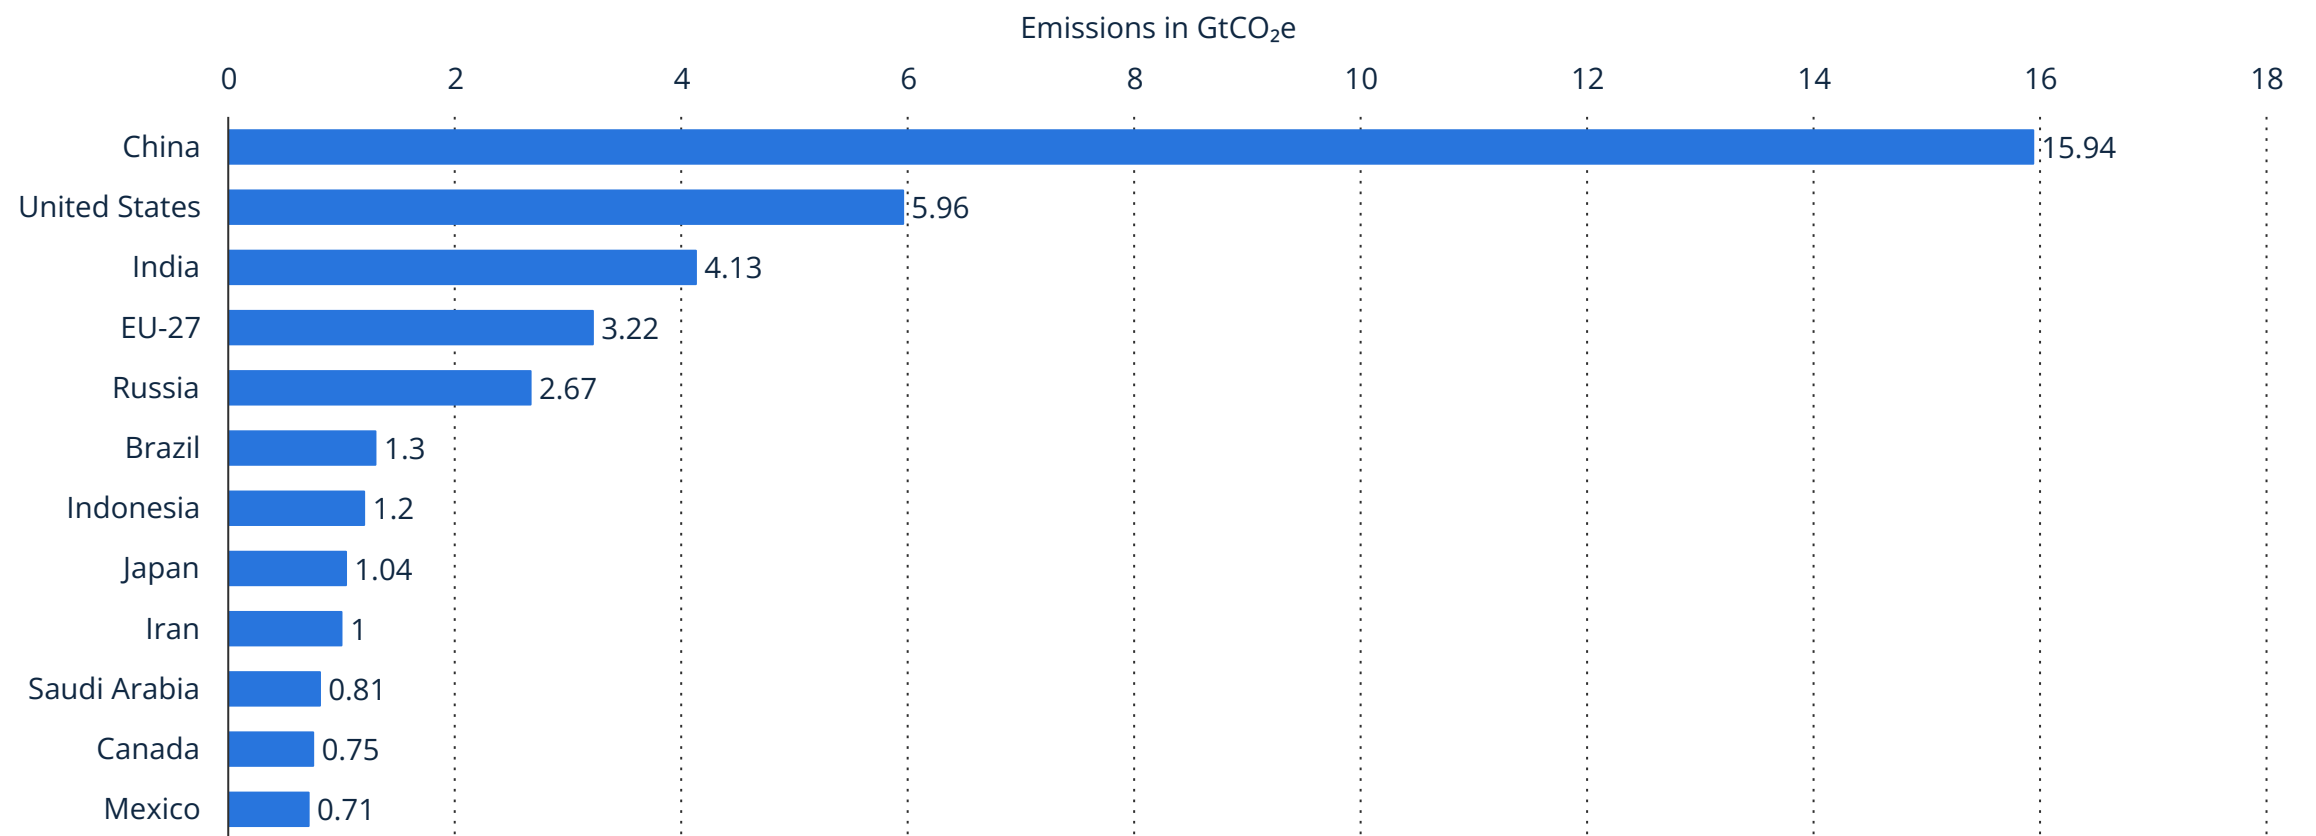

40

CHAPTER 01

Overview

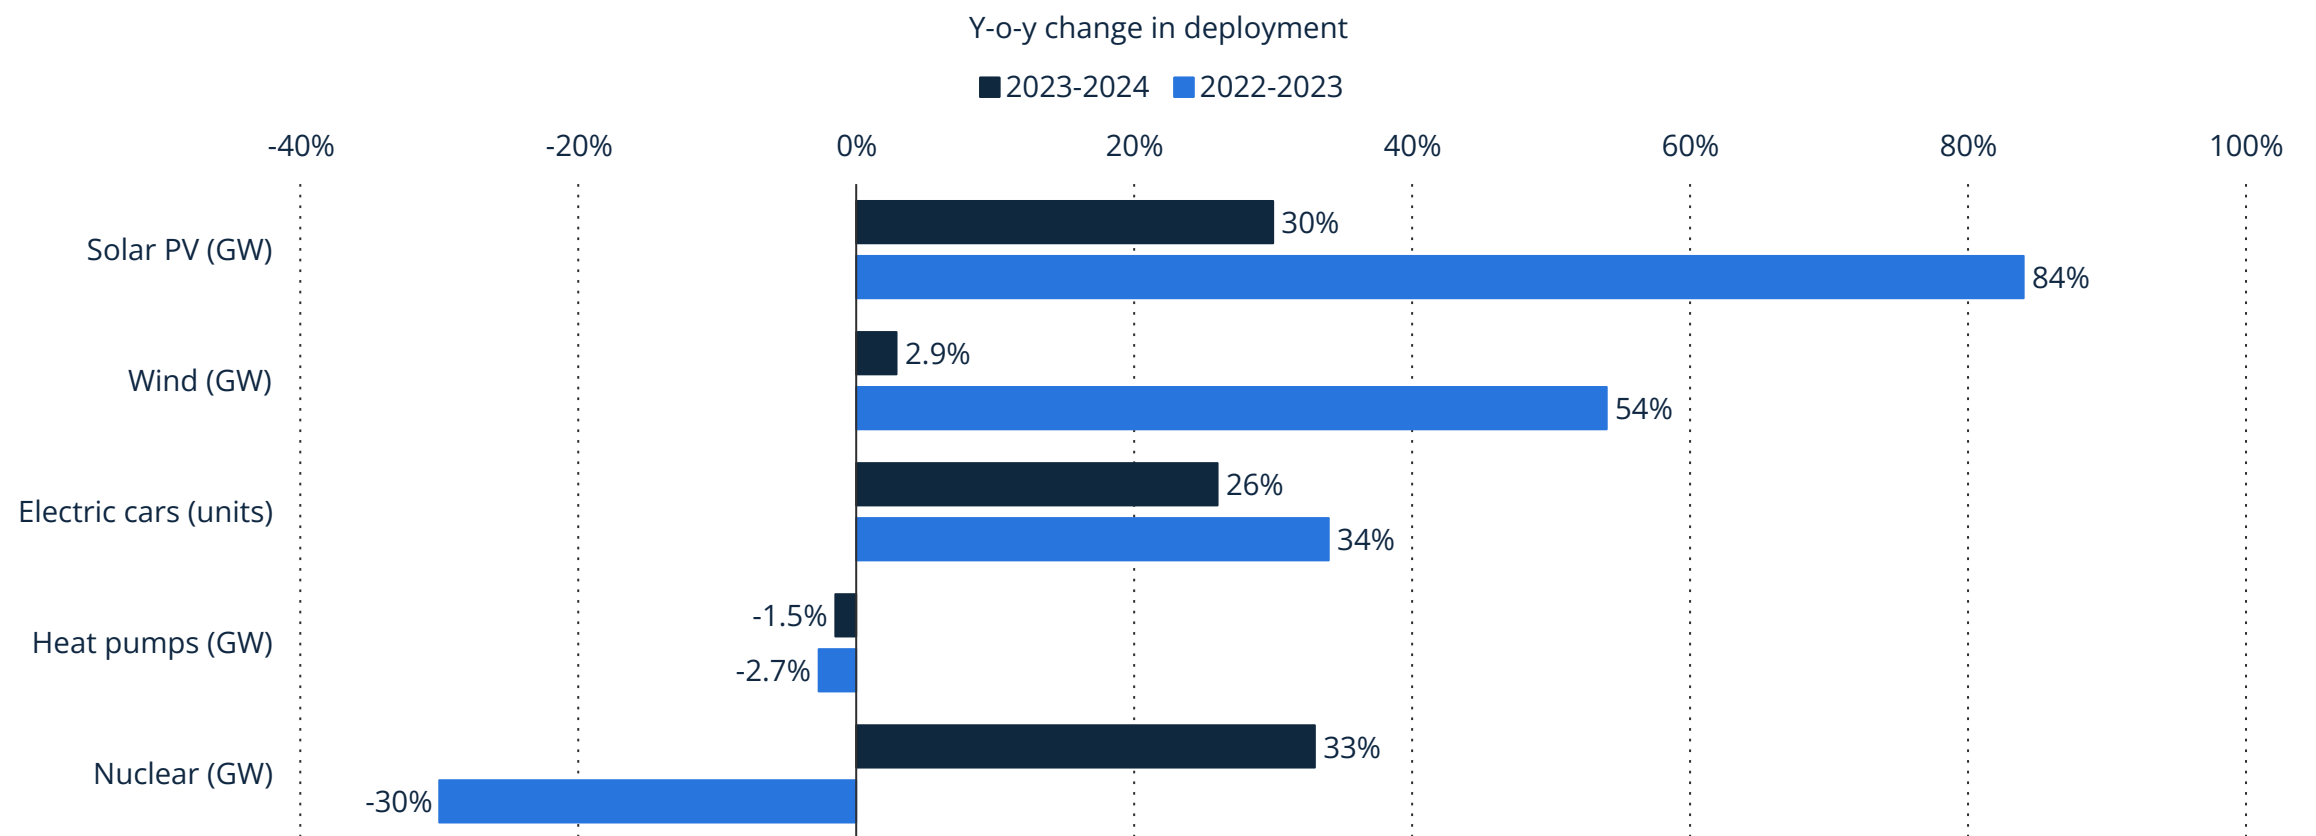

Largest contributors to greenhouse gas emissions worldwide in 2023, by country (in billion metric tons of carbon dioxide equivalent)

Greenhouse gas emissions worldwide 2023, by country

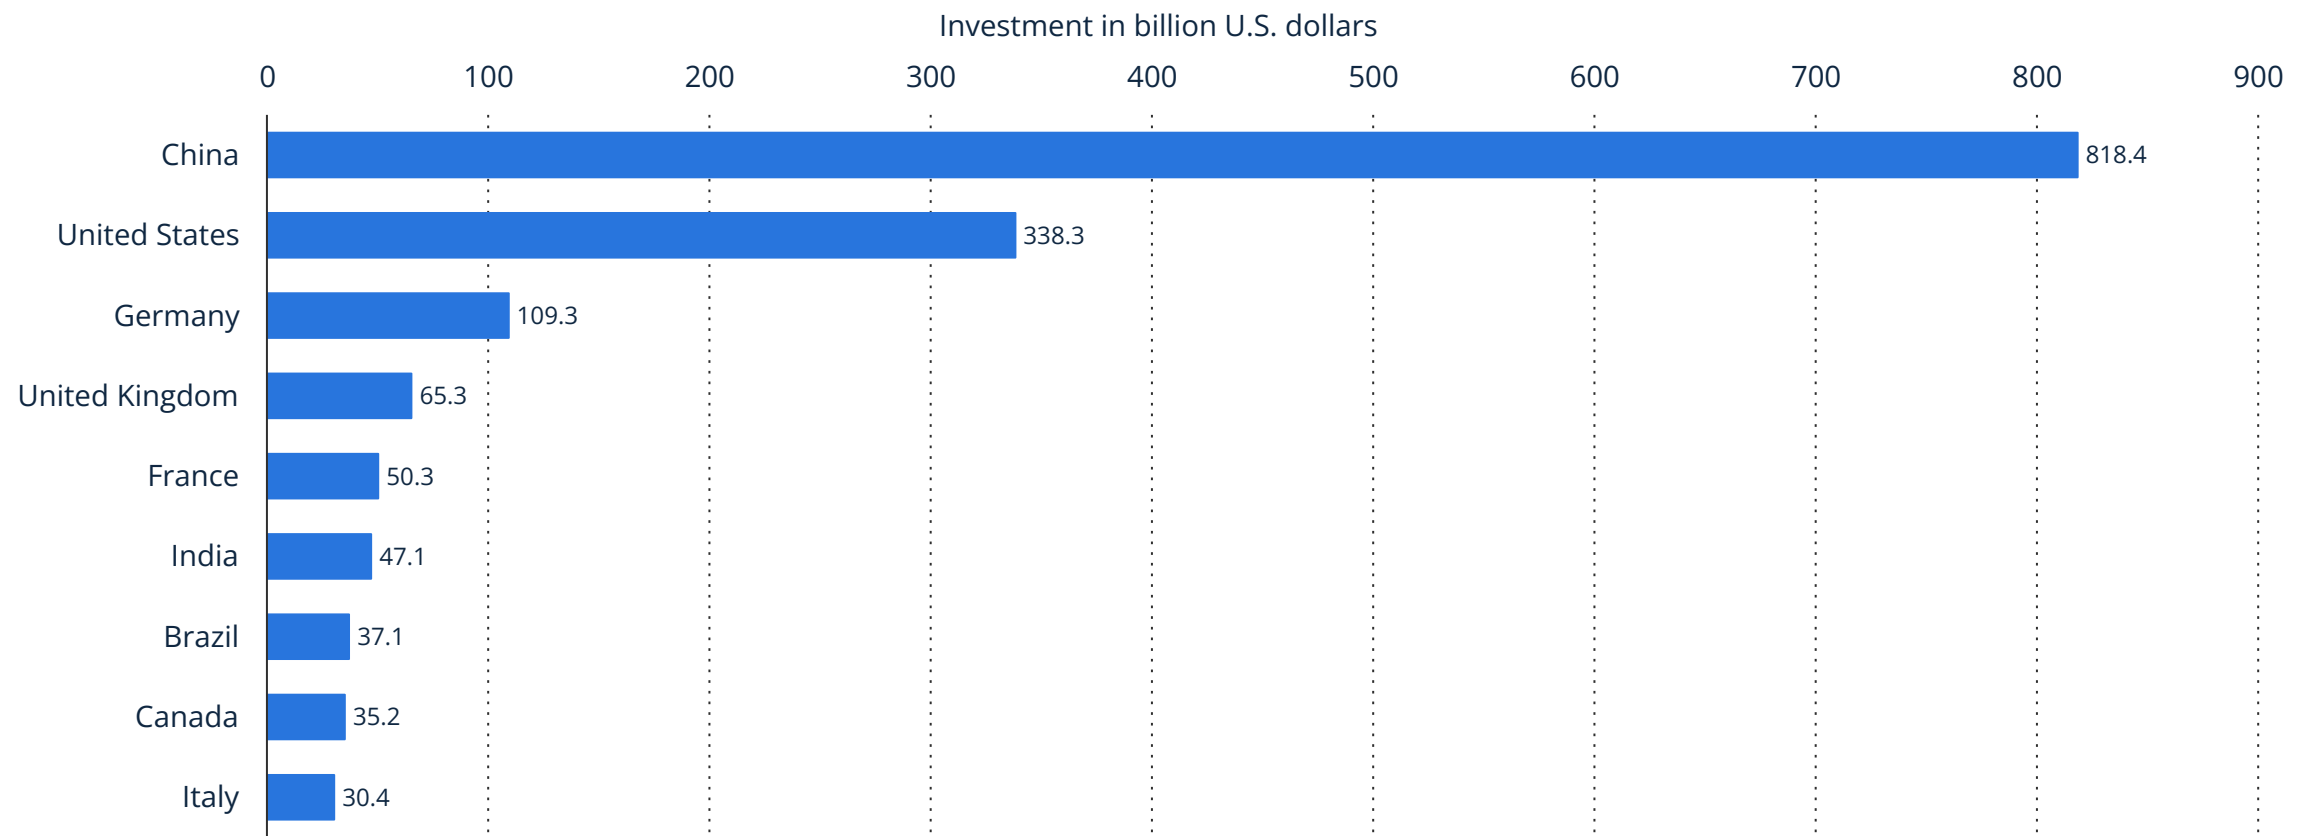

Year-on-year percentage change in th annual deployment of selected clean energy technologies worldwide in 2024

Annual change in clean energy deployment worldwide 2024, by key technology

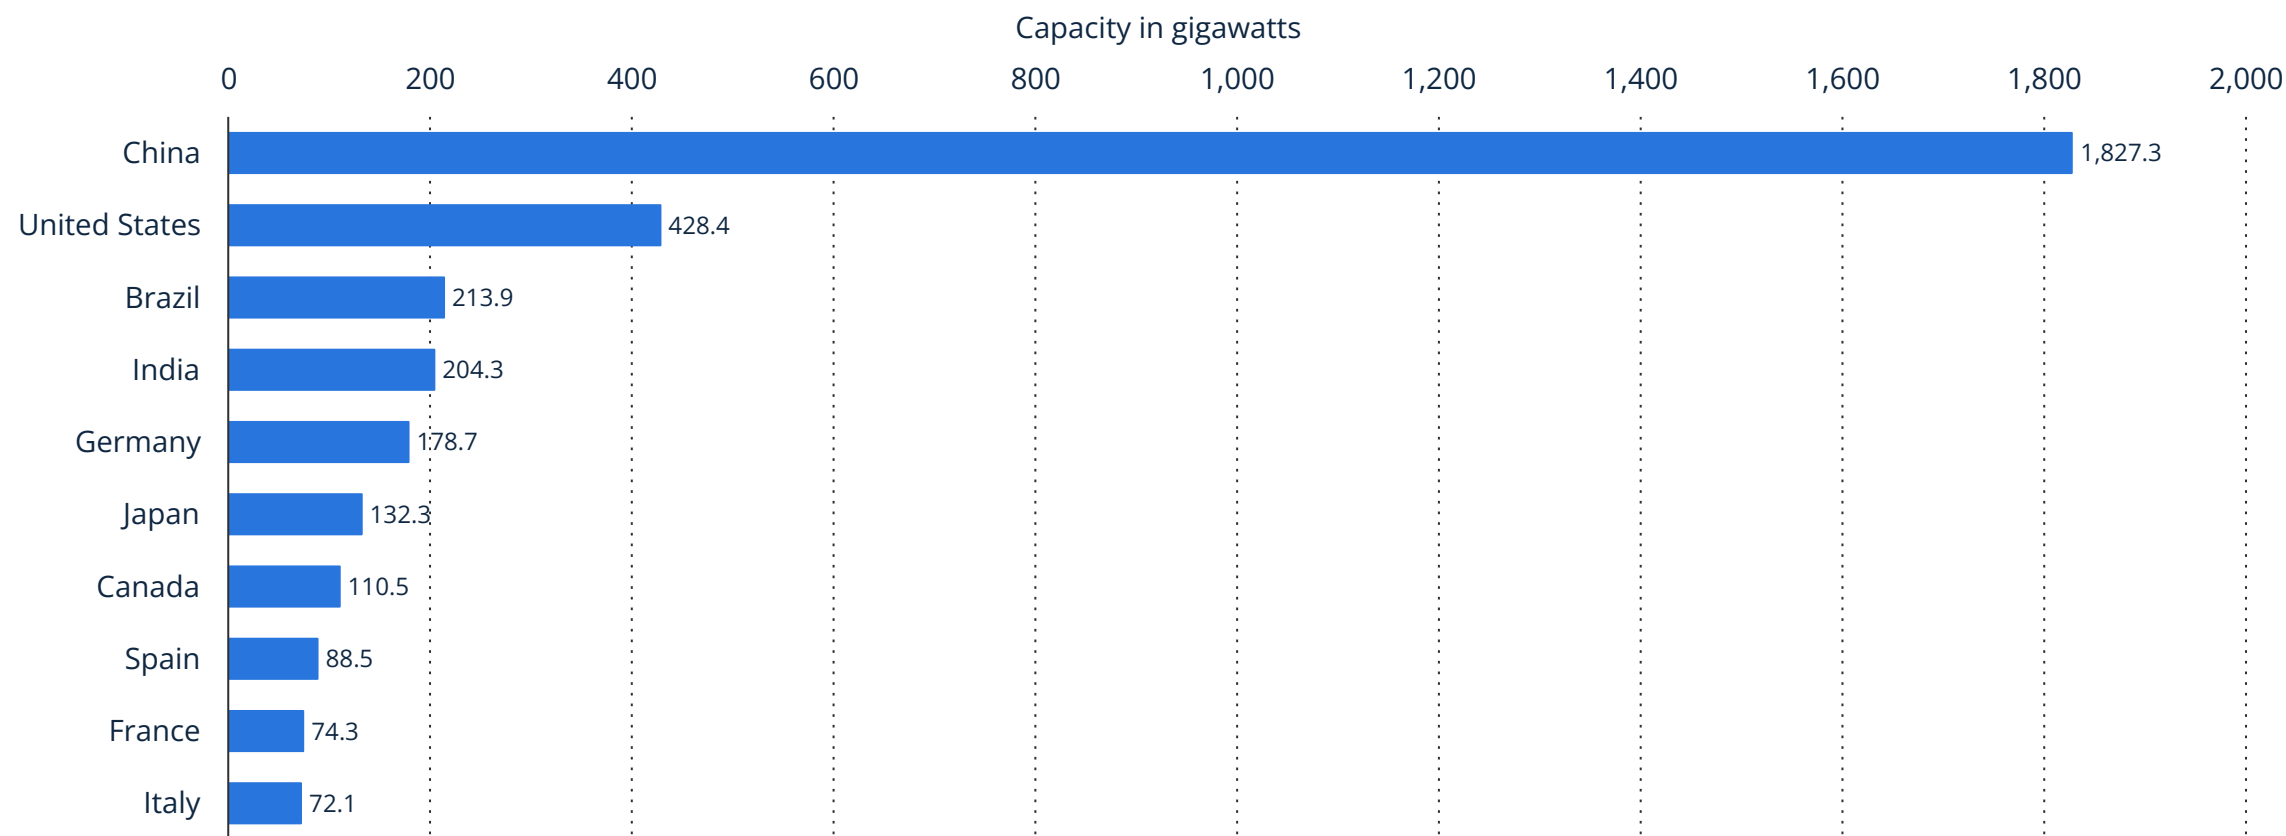

Investments in the energy transition worldwide in 2024, by leading country (in billion U.S. dollars)

Global energy transition investments 2024, by leading country

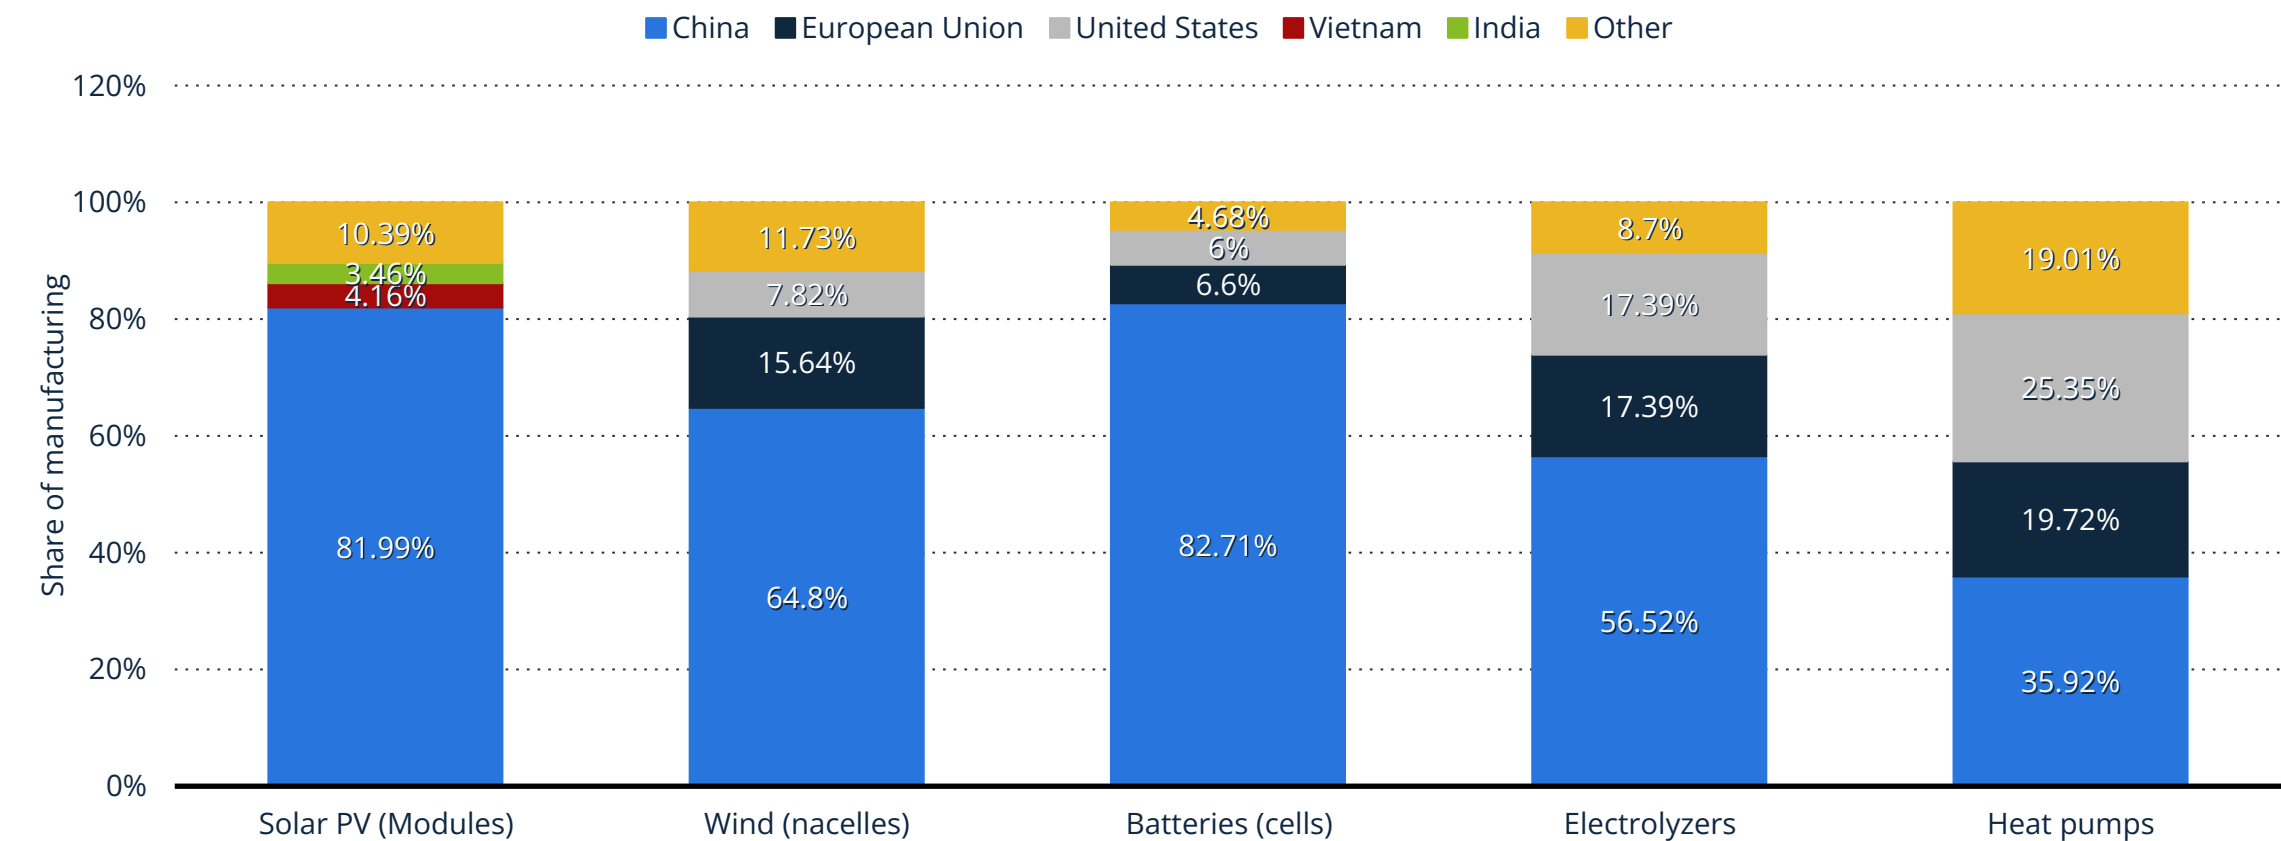

Leading countries in installed renewable energy capacity worldwide in 2024 (in gigawatts)

Renewable energy capacity worldwide 2024, by country

Distribution of clean energy technology manufacturing as of 2023, by region

Share of clean energy technologies manufacturing 2023, by region

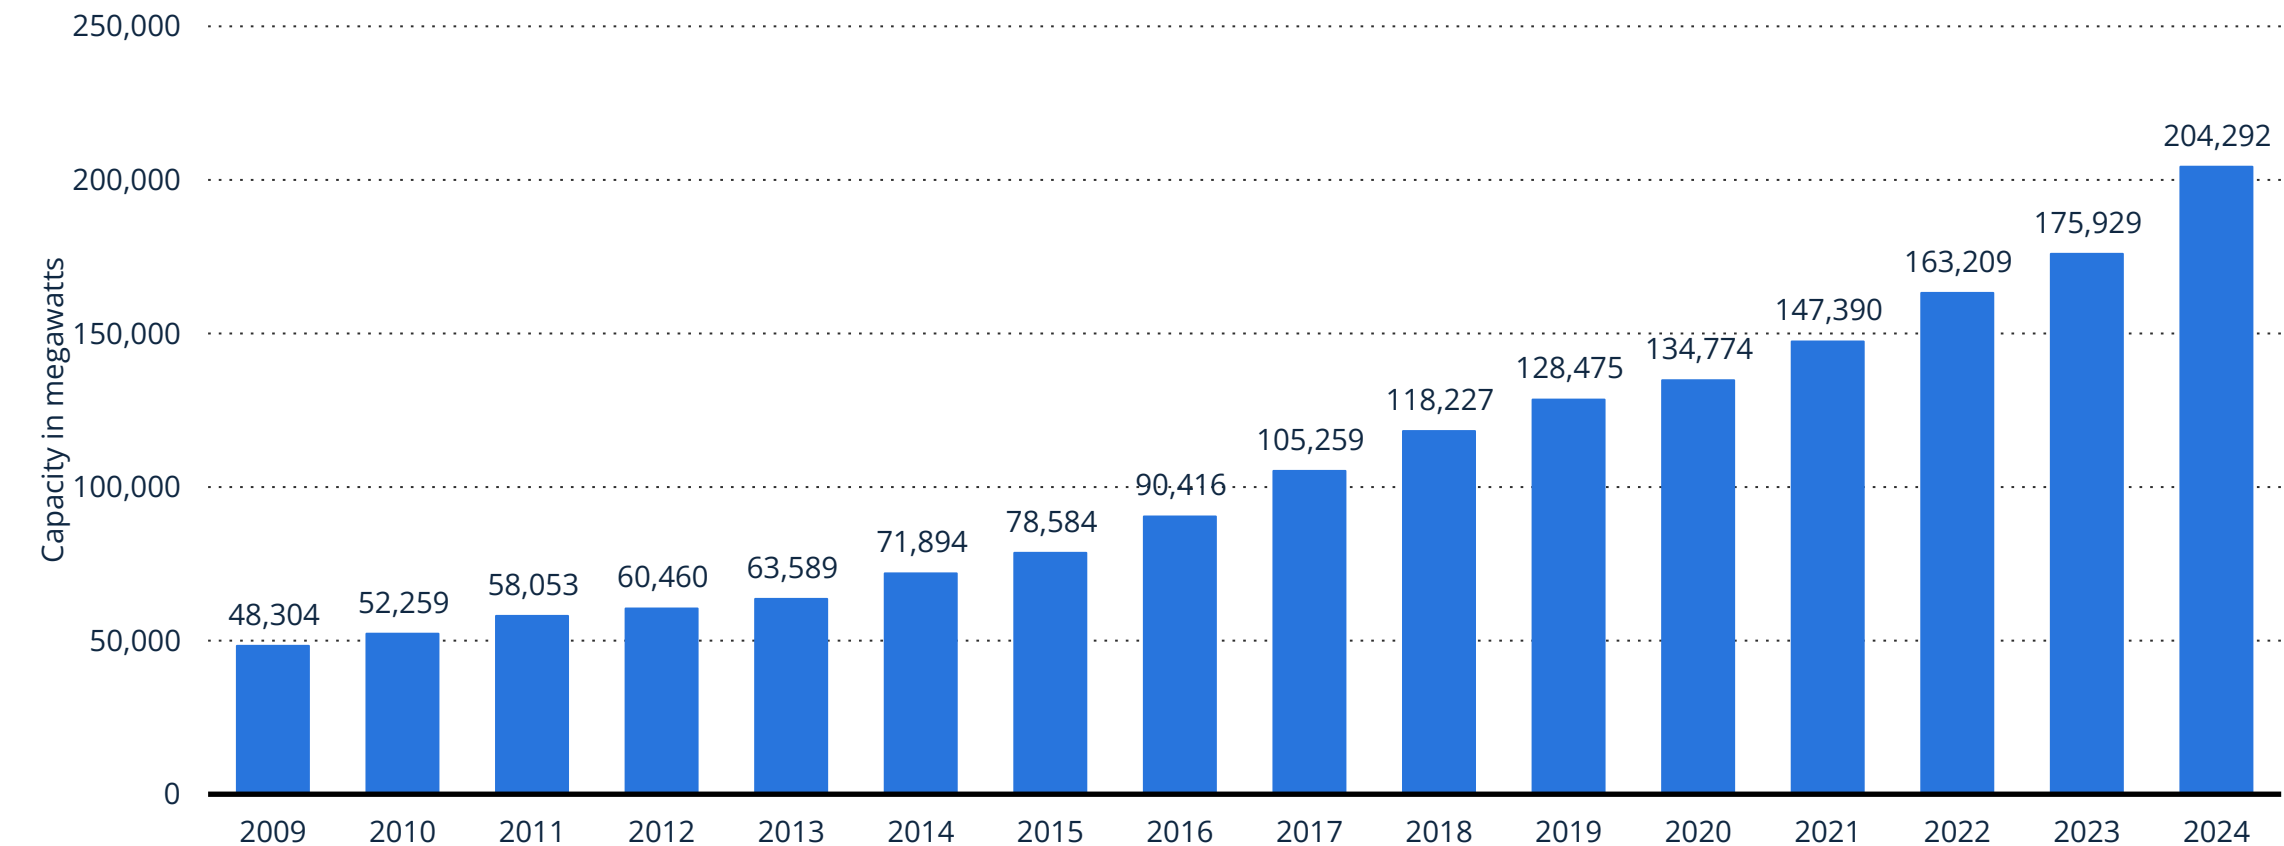

CHAPTER 02

Deployment

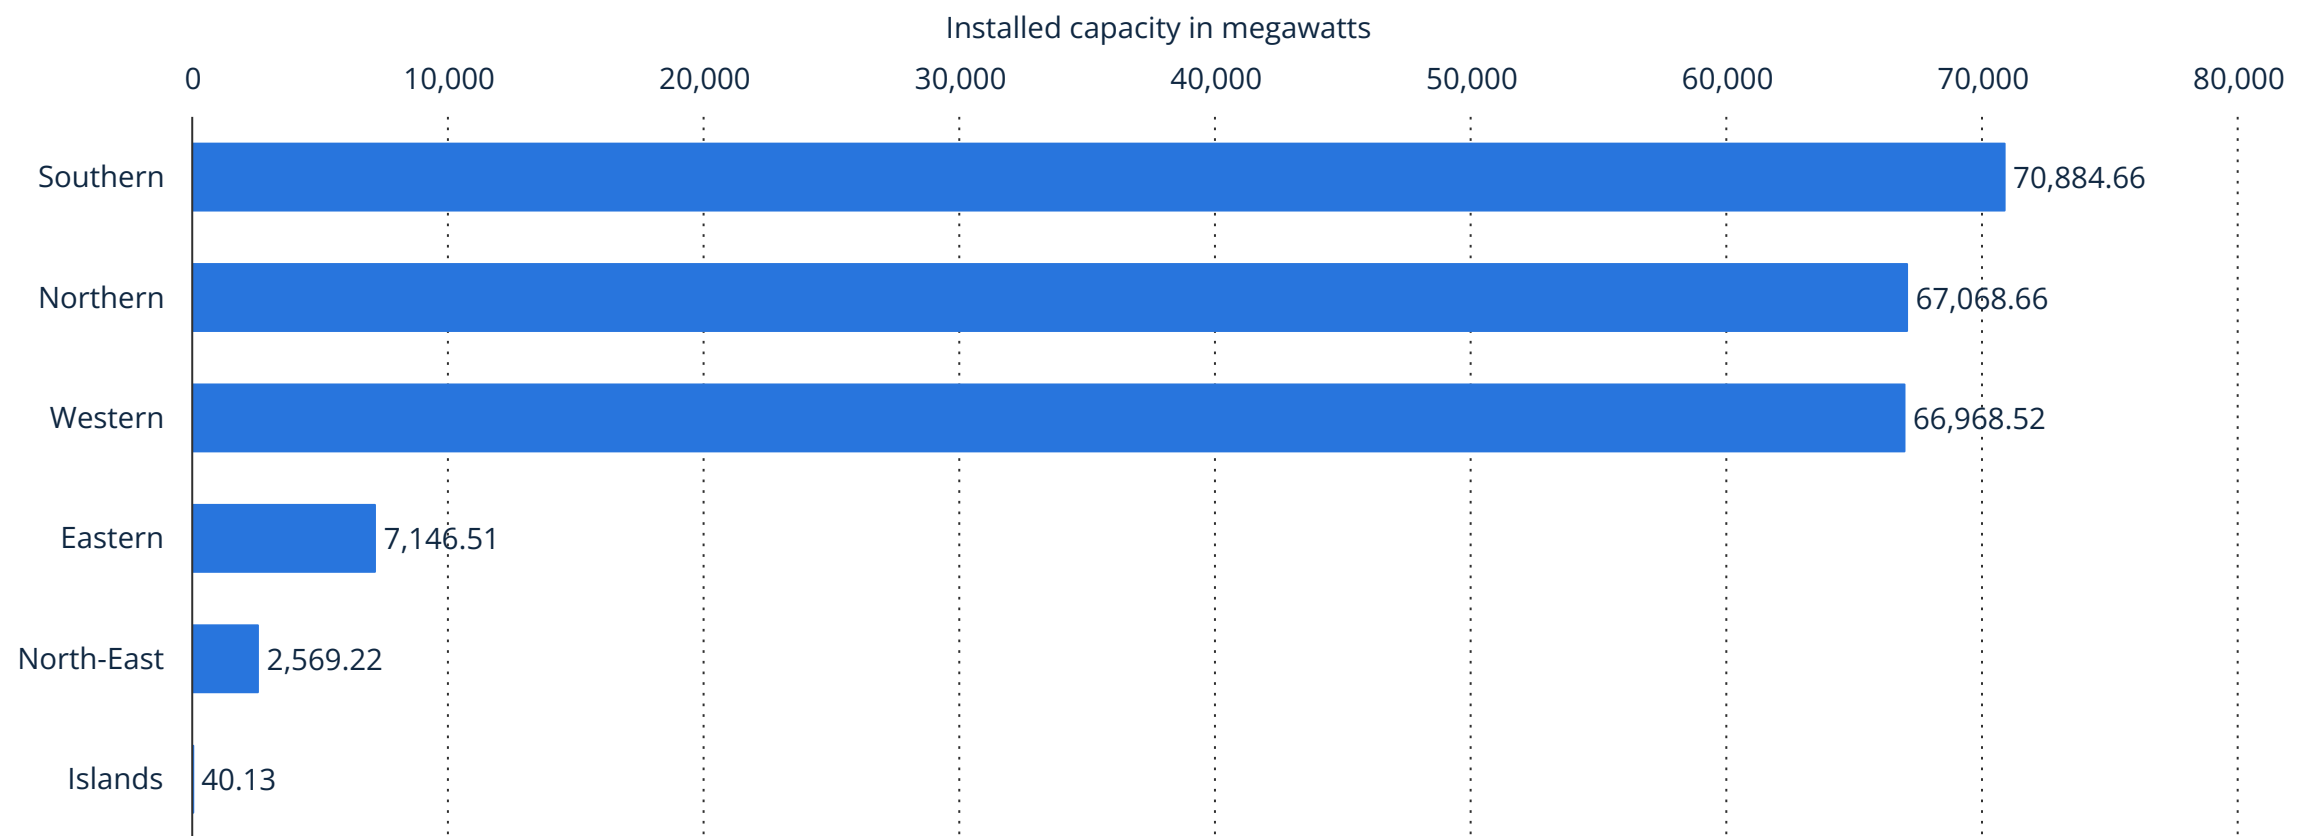

Renewable energy capacity in India from 2009 to 2024 (in megawatts)

Renewable energy capacity in India 2009-2024

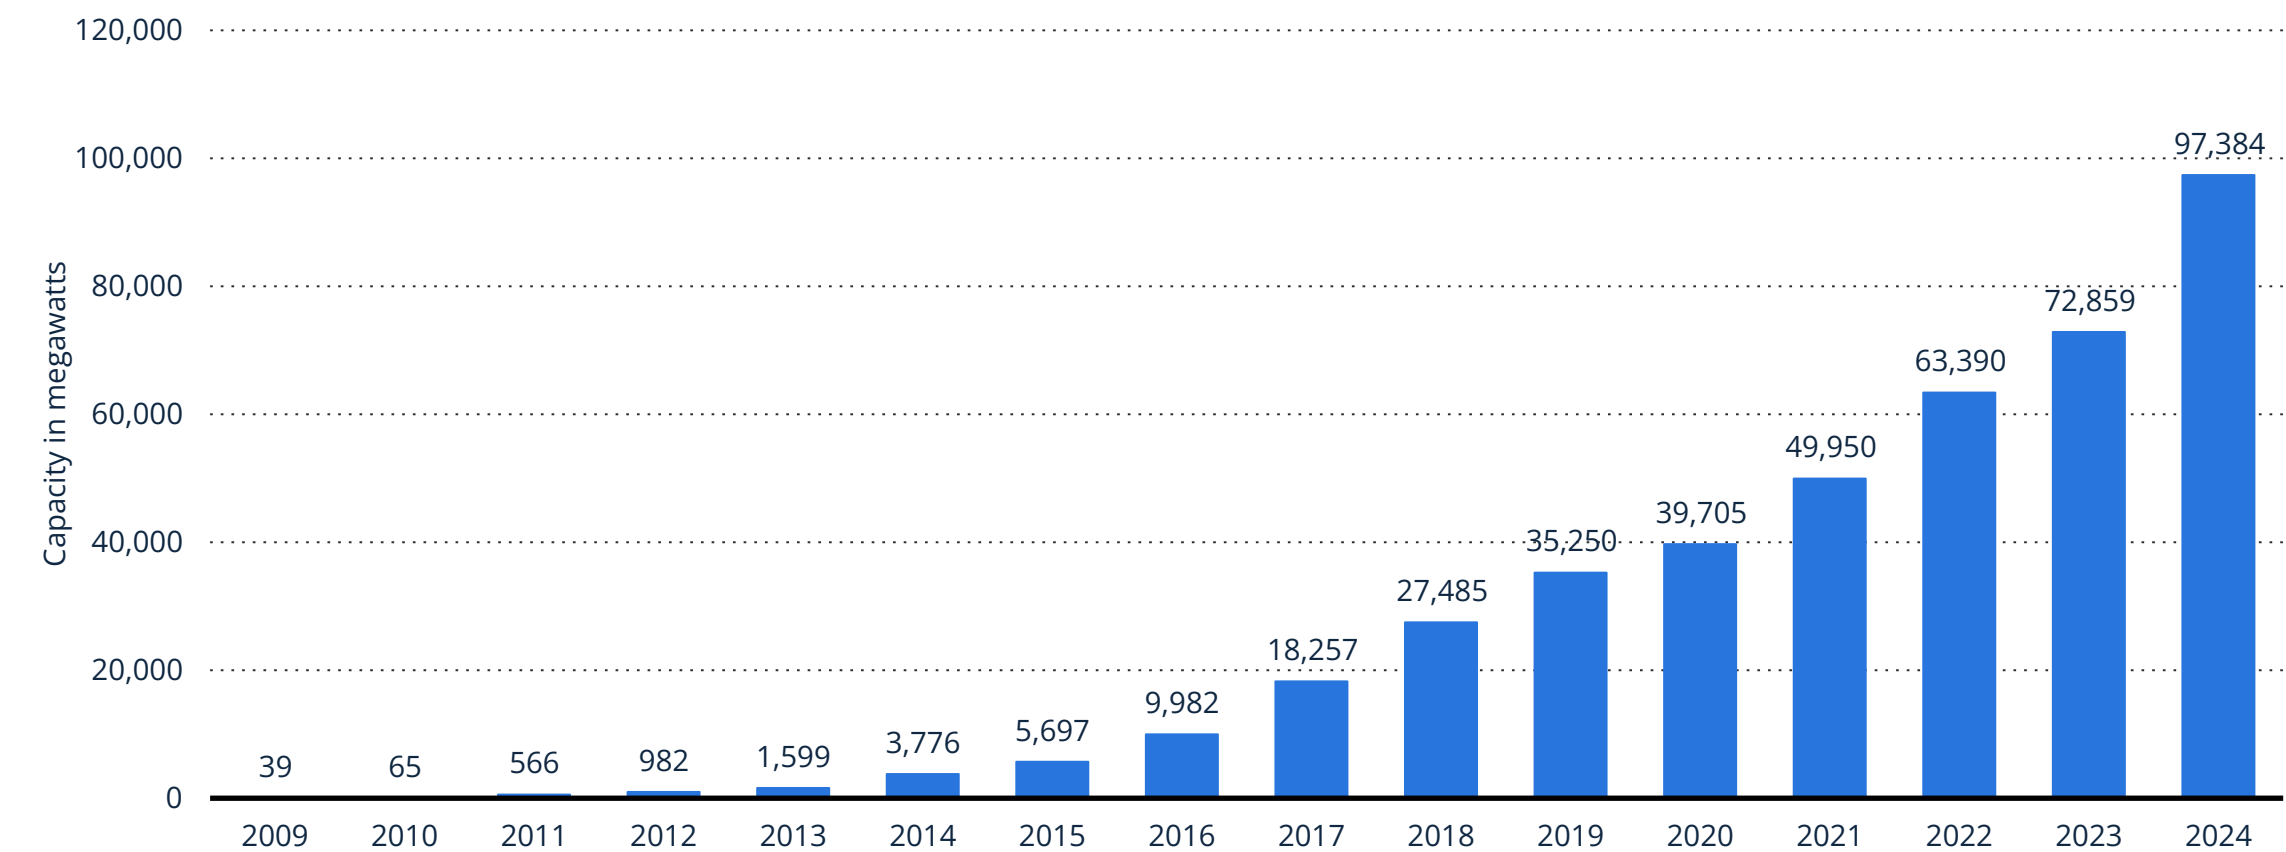

Installed renewable energy capacity in India as of March 2025, by region (in megawatts)

Installed renewable energy capacity India 2025, by region

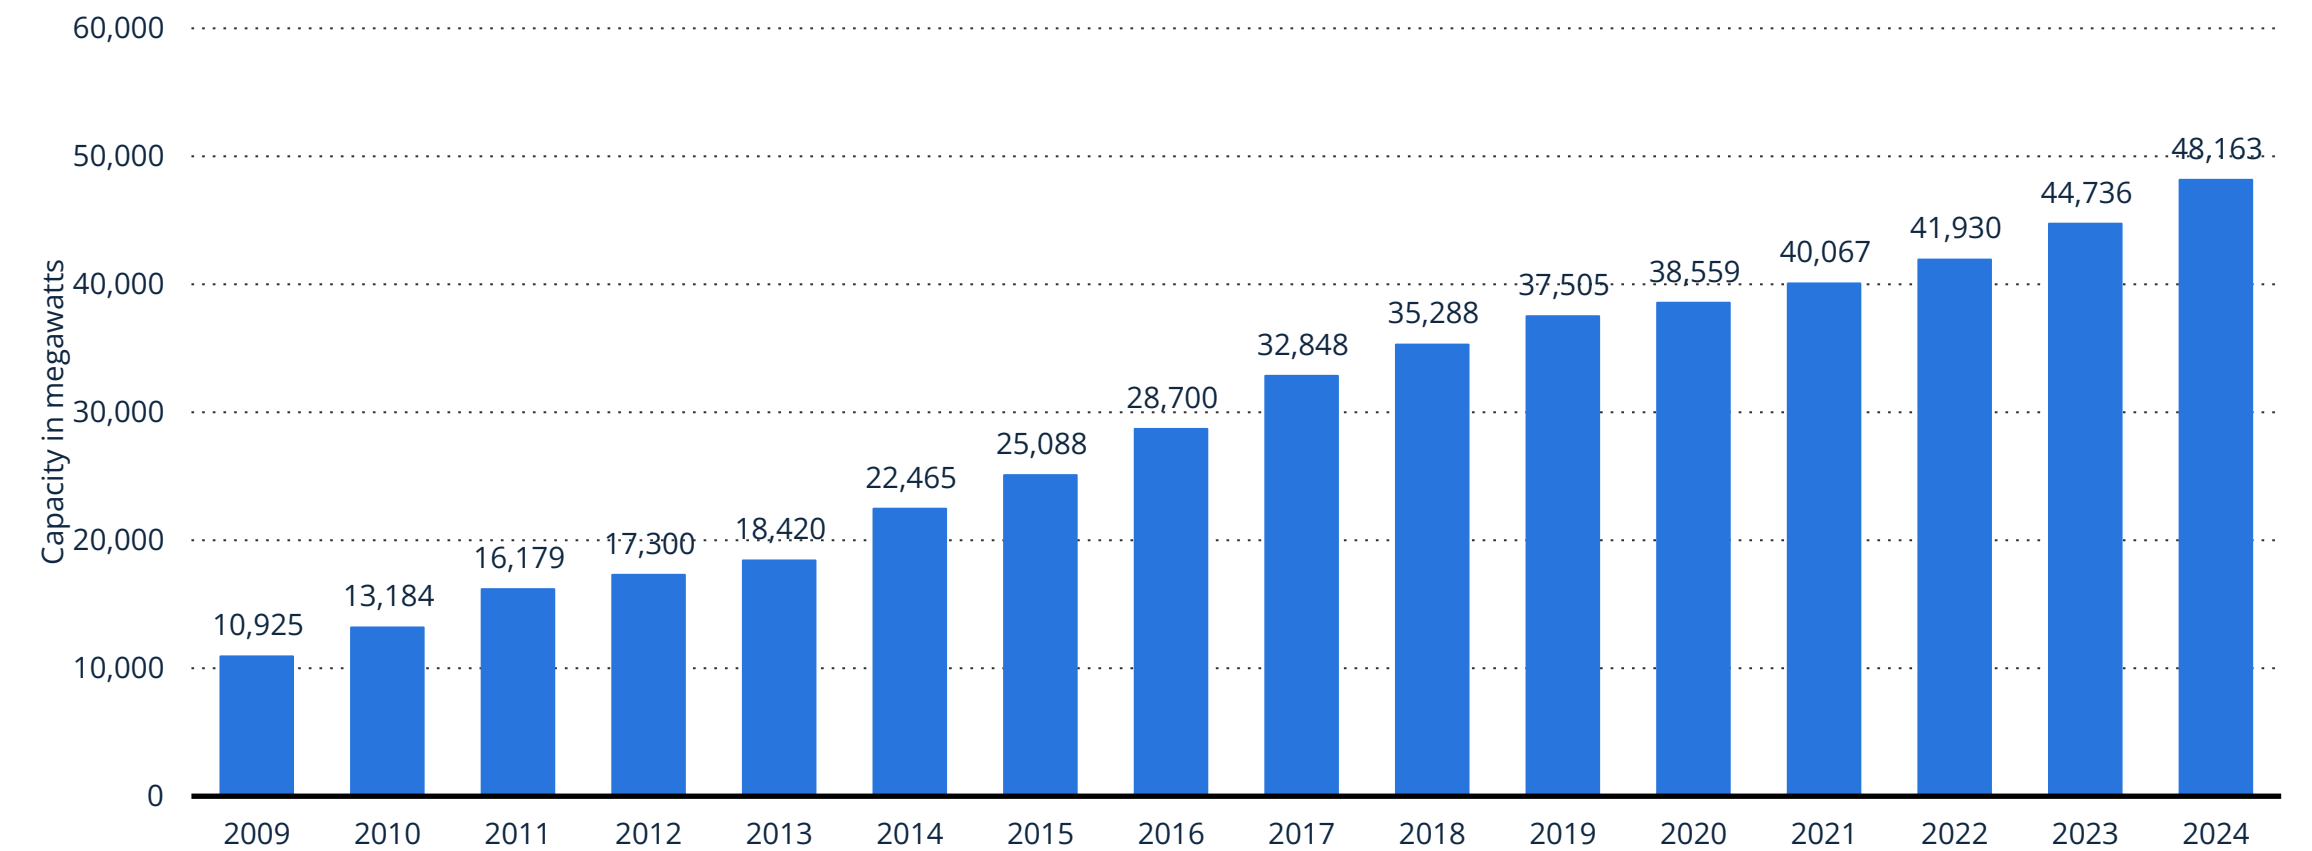

Solar energy capacity in India from 2009 to 2024 (in megawatts)

Solar energy capacity in India 2009-2024

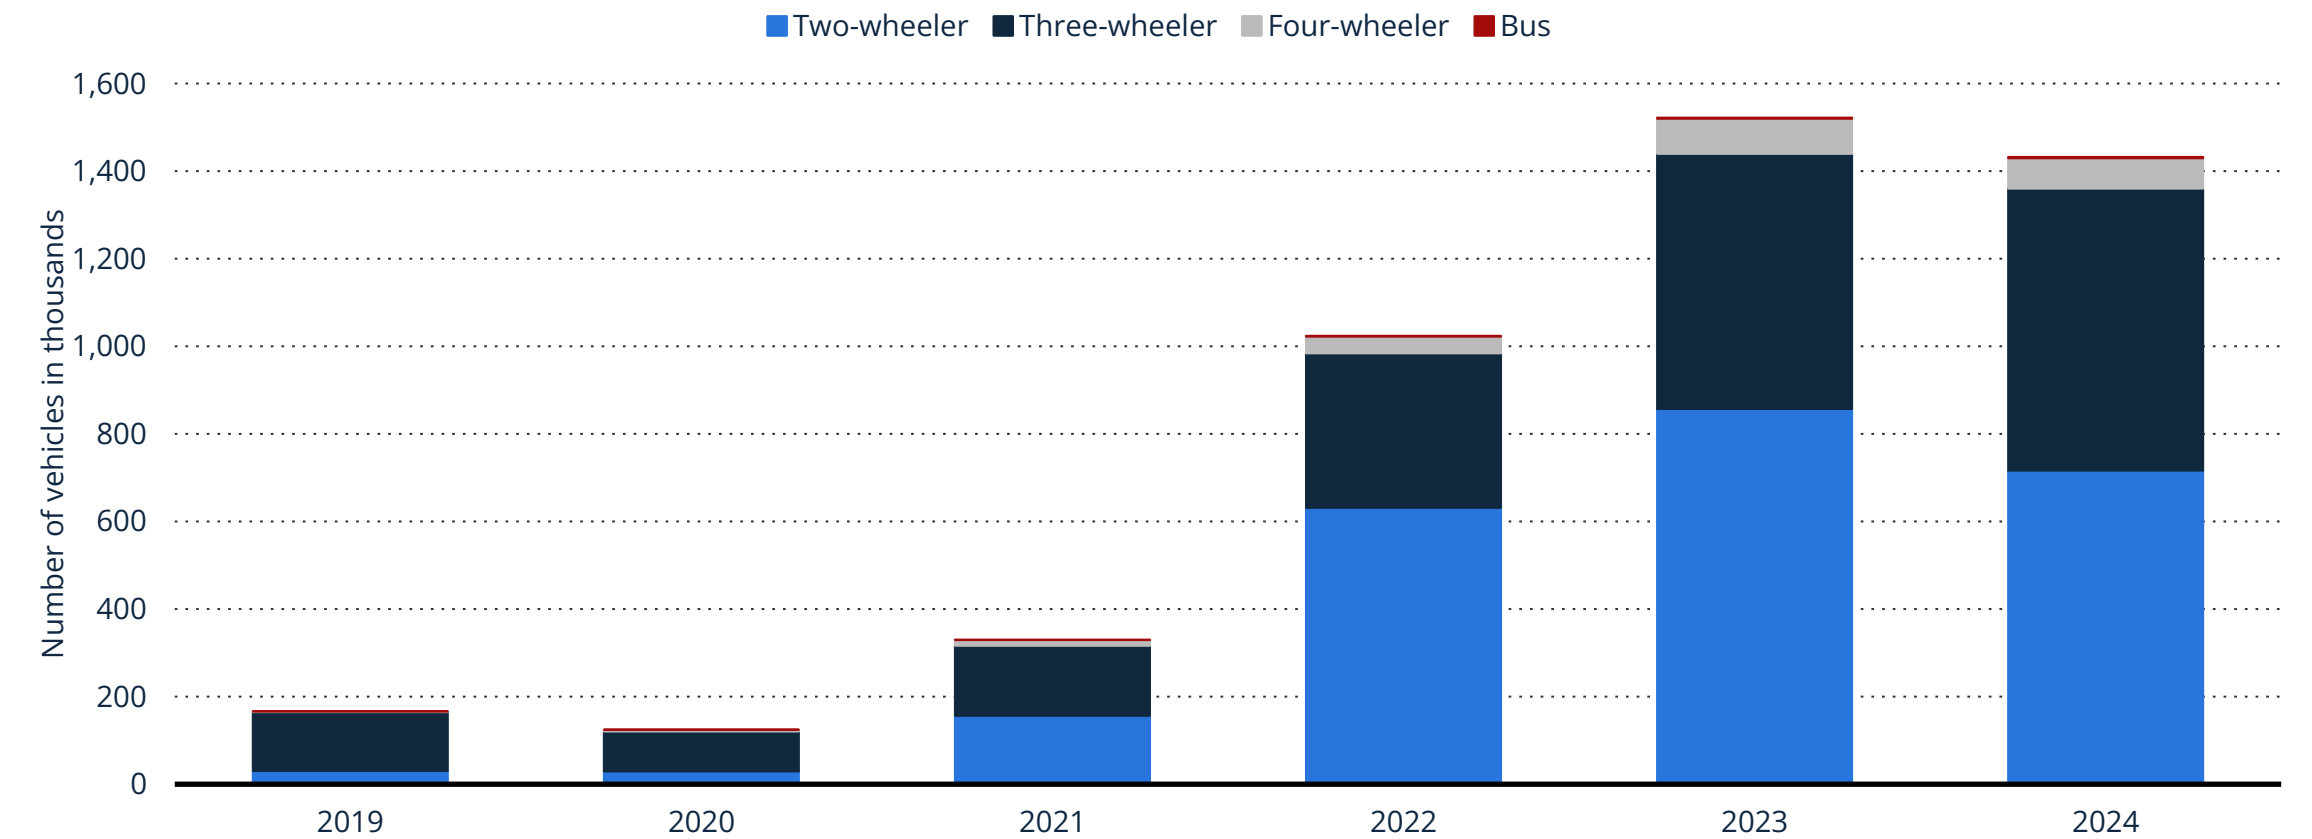

Installed wind energy capacity in India from 2009 to 2024 (in megawatts)

Installed wind energy capacity in India 2009-2024

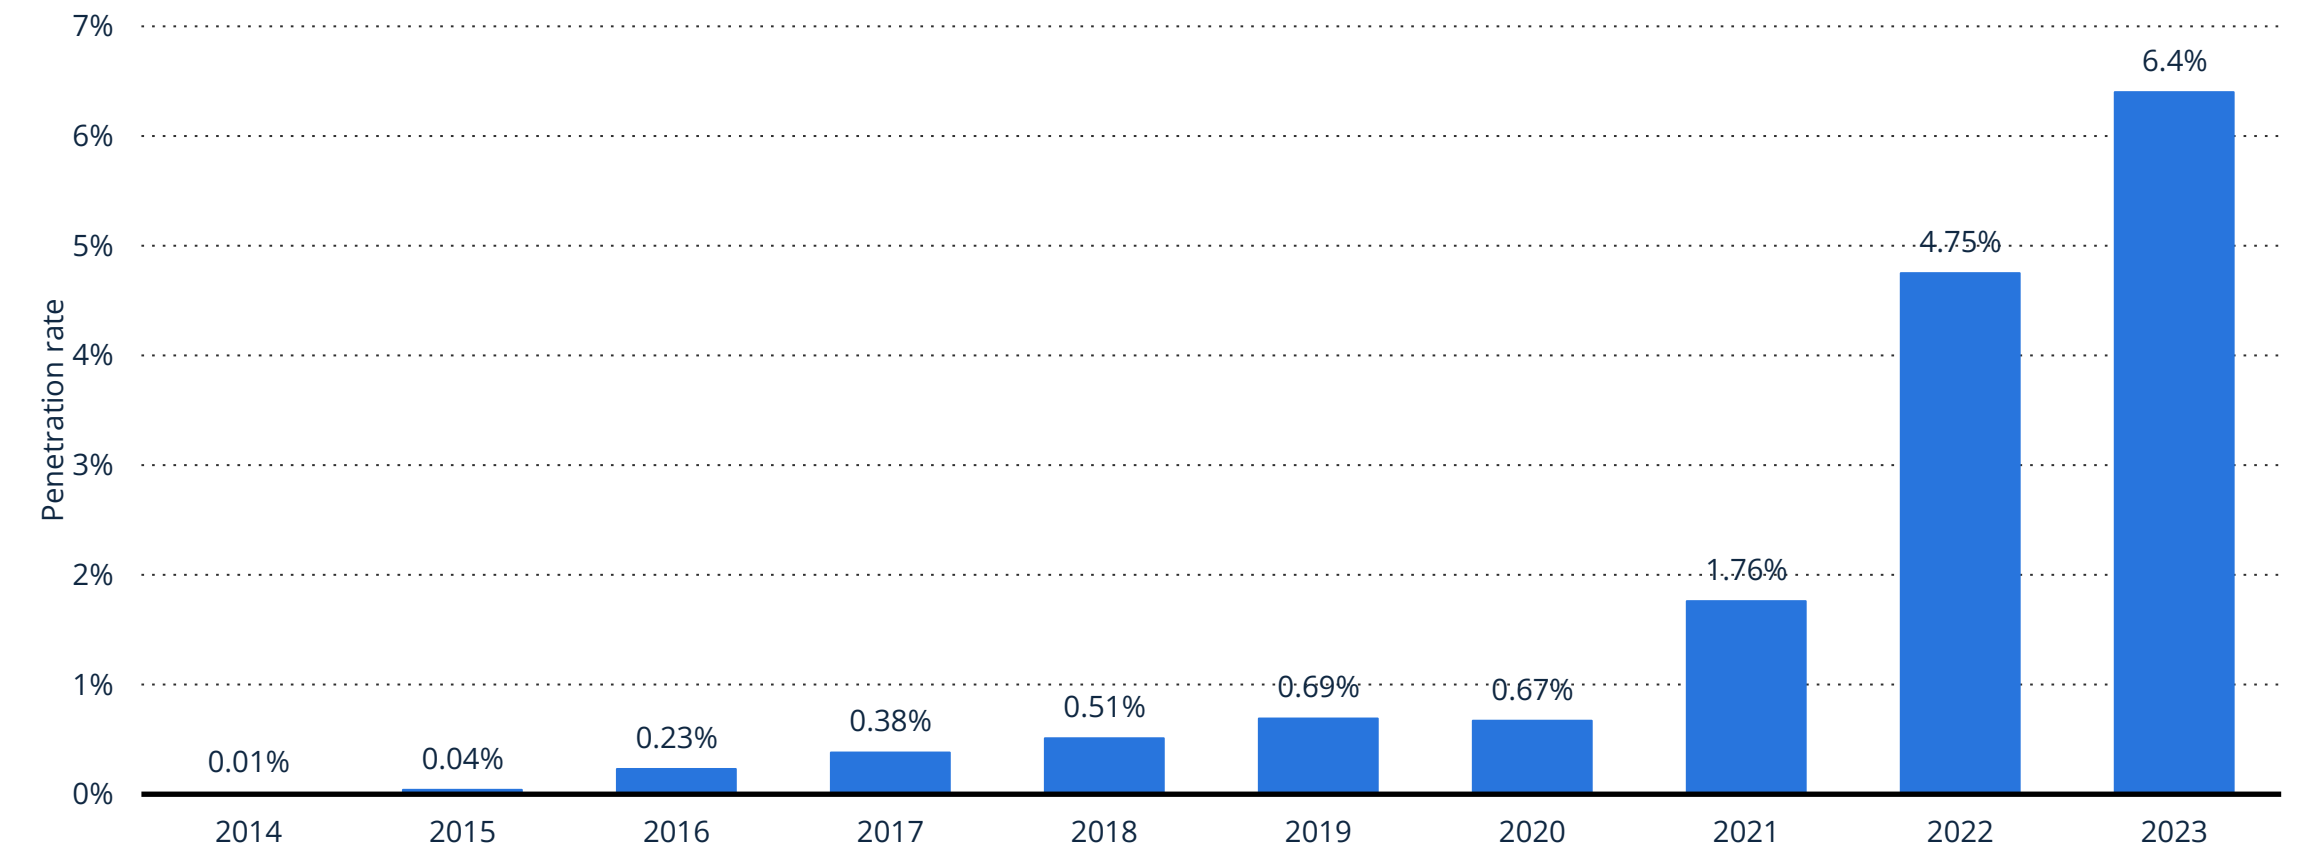

Number of electric vehicles sold in India from 2019 to 2024, by type (in 1,000 units)

Number of electric vehicles sold in India 2019-2024, by type

Penetration rate of electric vehicles in India from 2014 to 2023

Penetration of electric vehicles in India 2014-2023

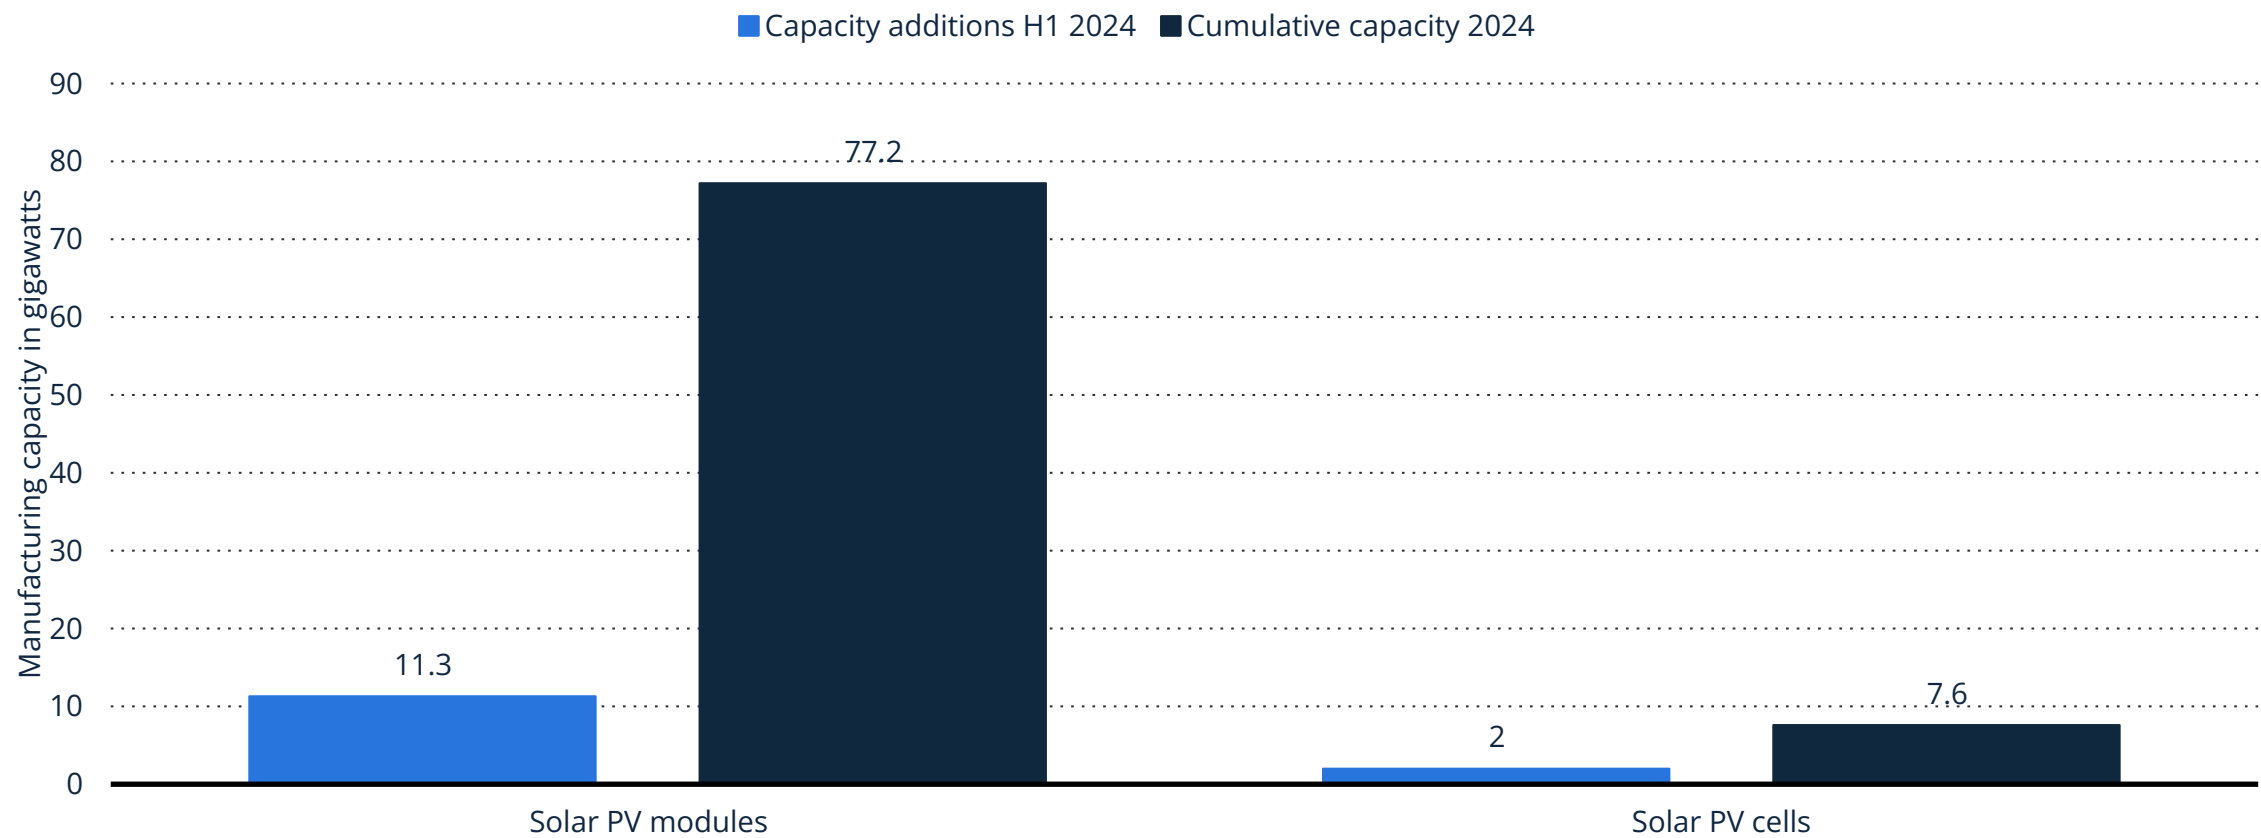

CHAPTER 03

Manufacturing

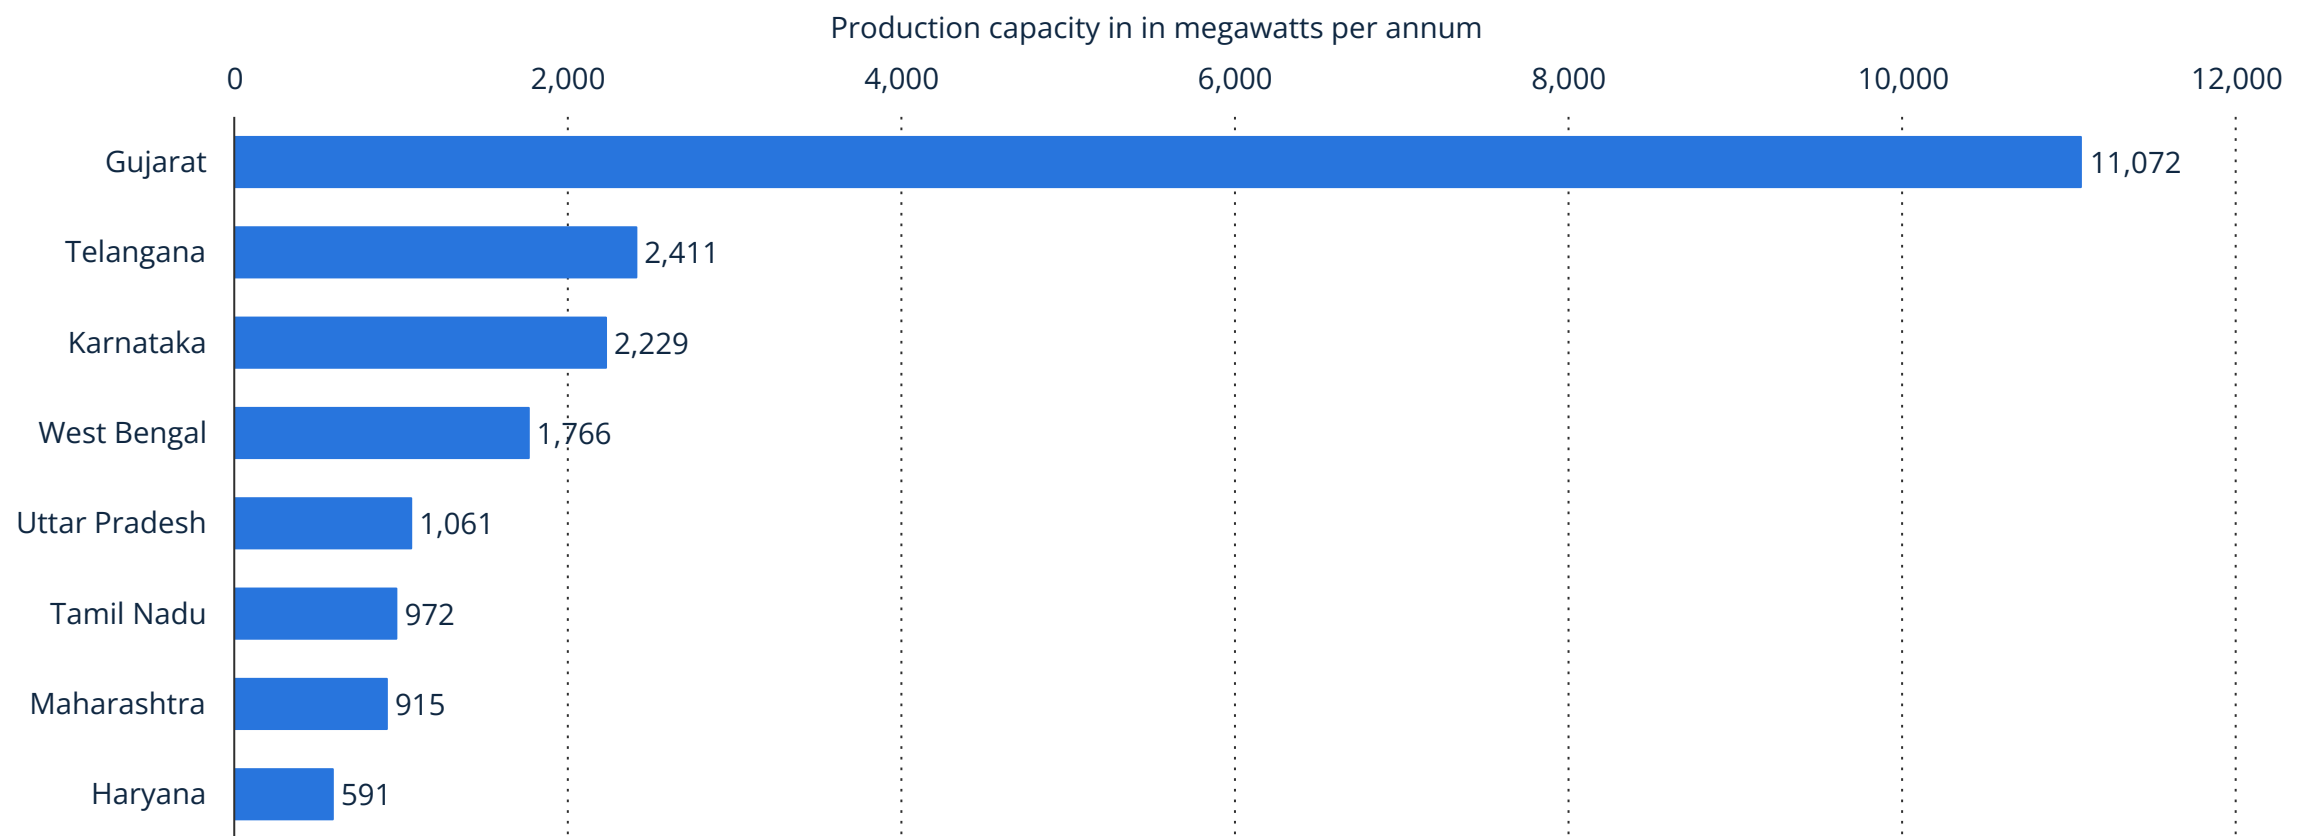

Cumulative and installed manufacturing capacity of solar PV modules and solar PV cells in India in H1 2024 (in gigawatts)

India solar PV module and cell manufacturing capacity H1 2024

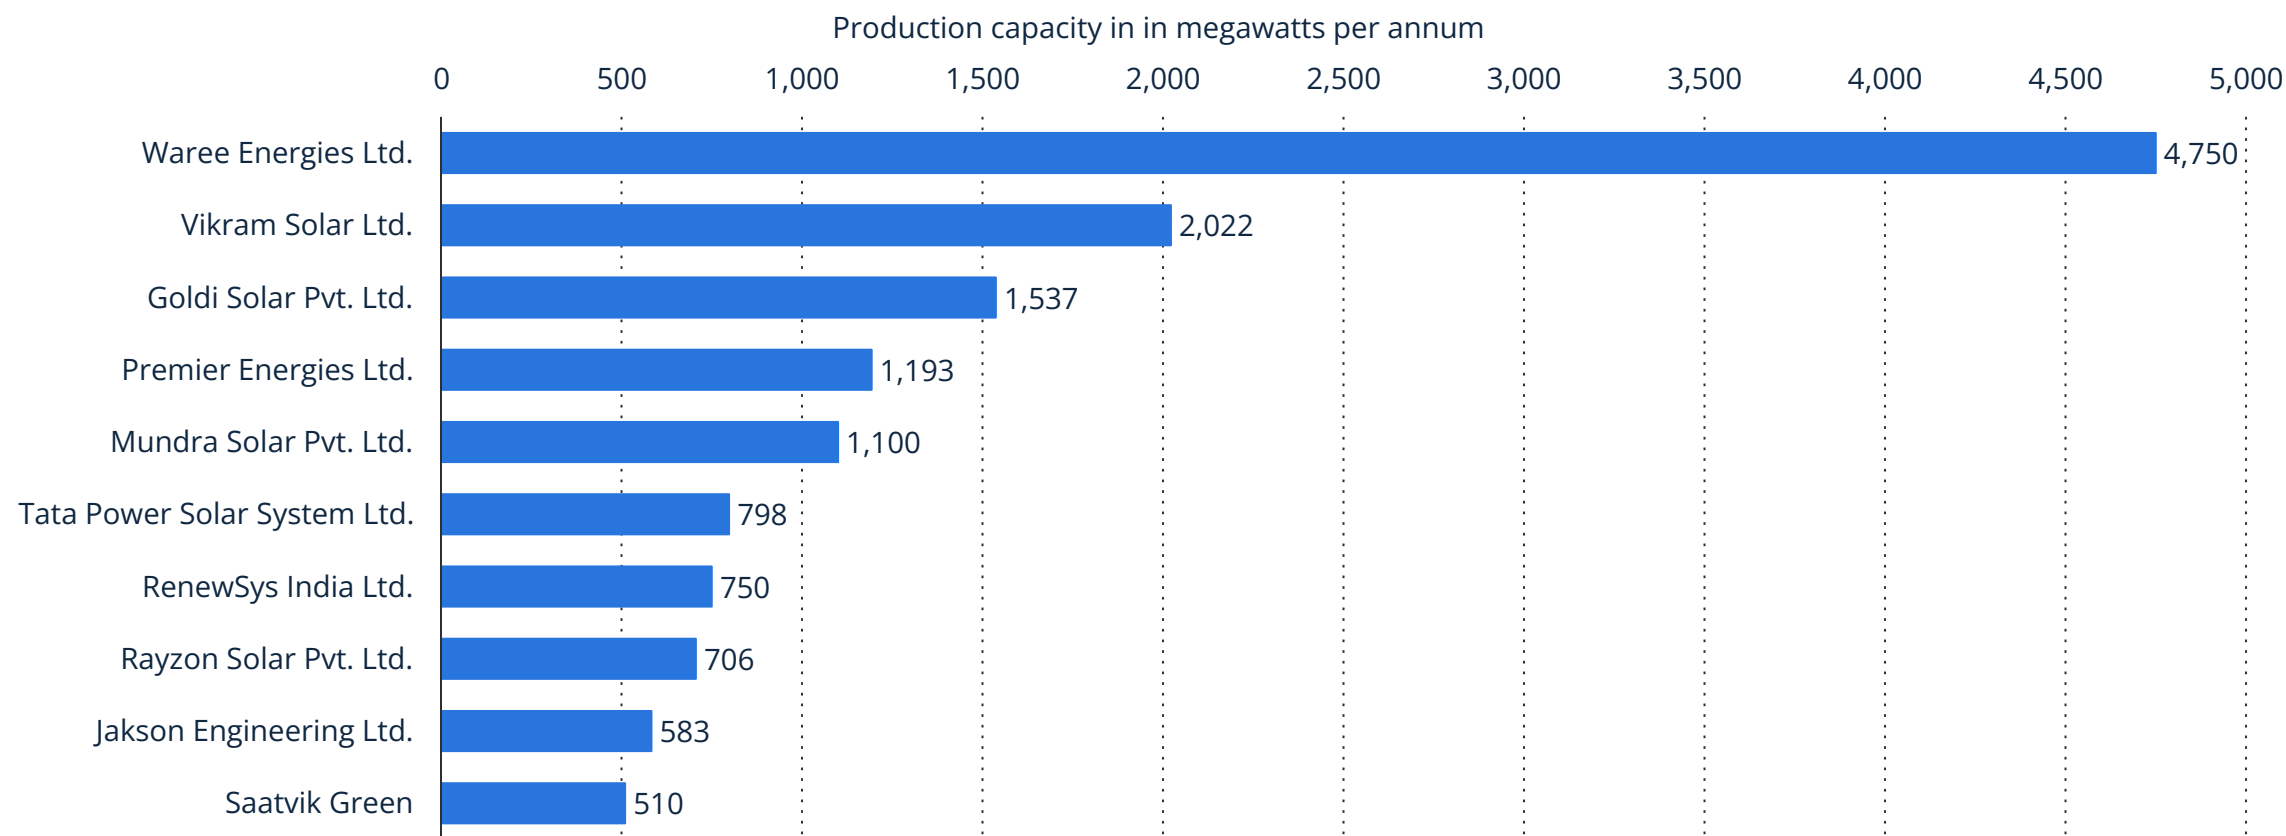

Regions with the largest solar photovoltaic module manufacturing capacity in India as of January 2023 (in megawatts per annum)

Solar PV module production capacity in India 2023, by region

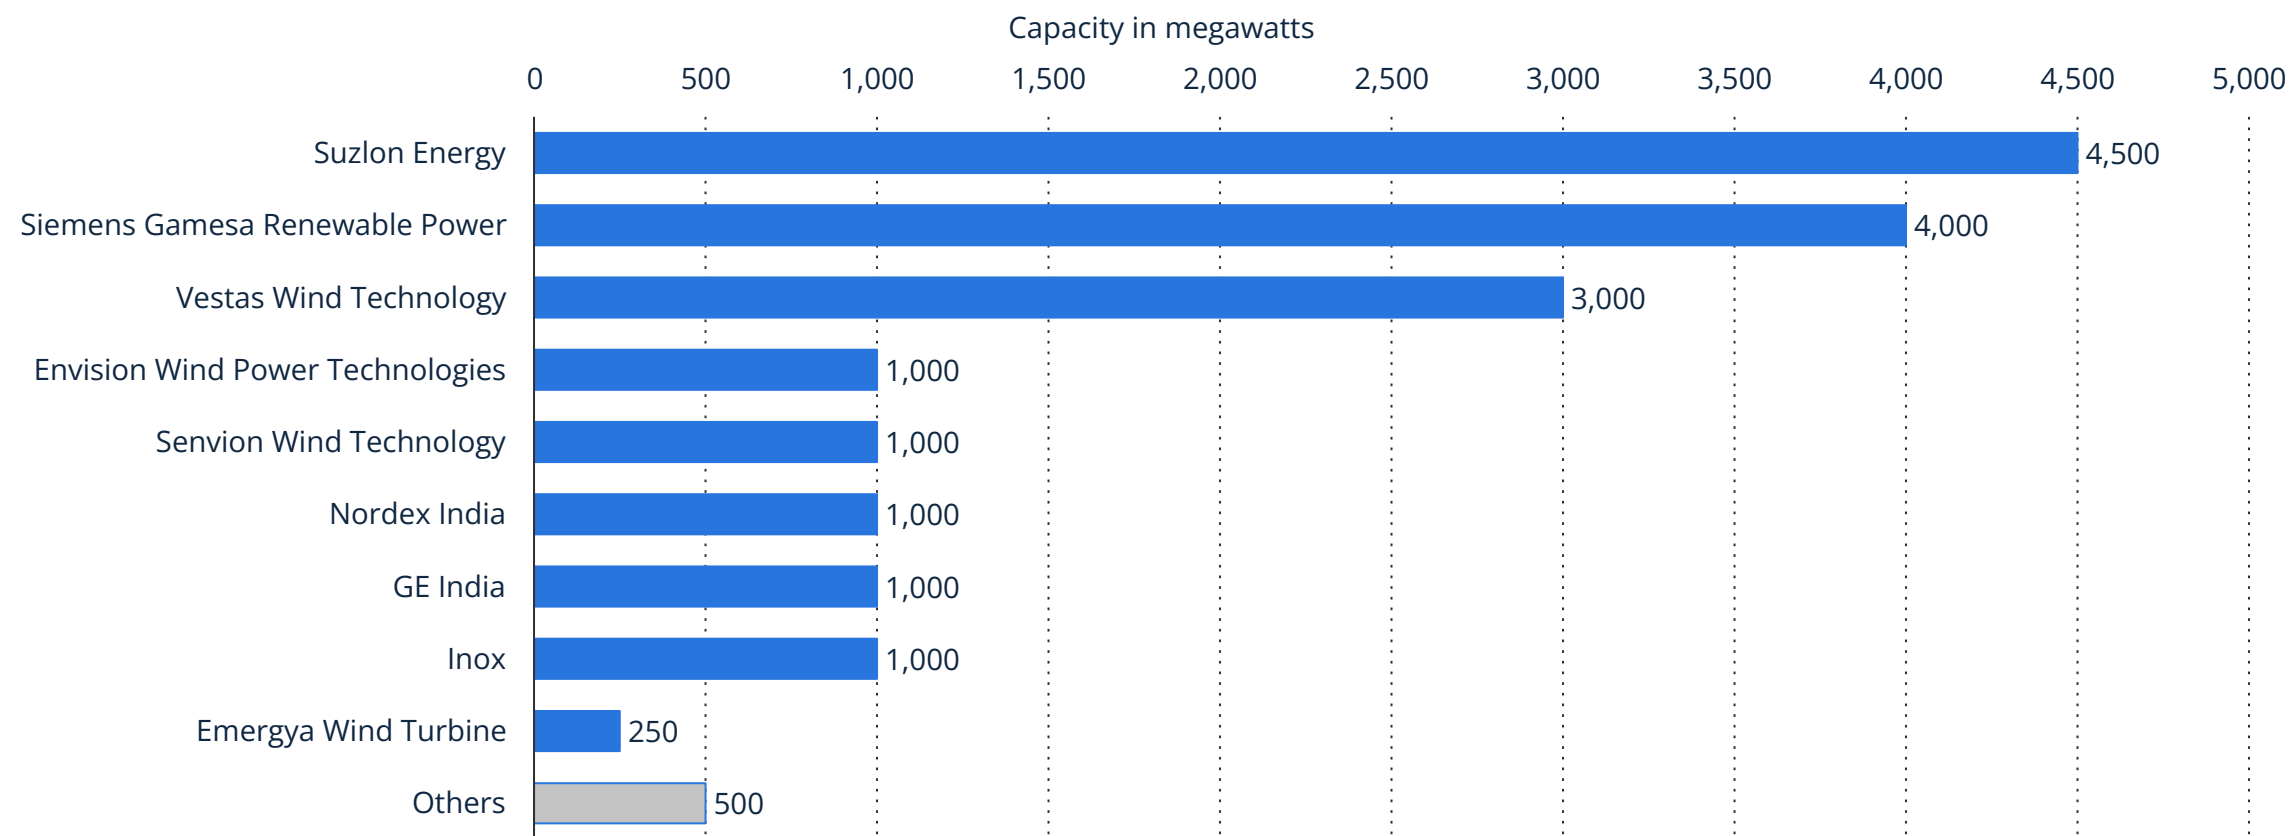

Largest solar photovoltaic module manufacturers in India as of March 2023, by capacity (in megawatts per annum)

Solar PV module production capacity in India 2023, by company

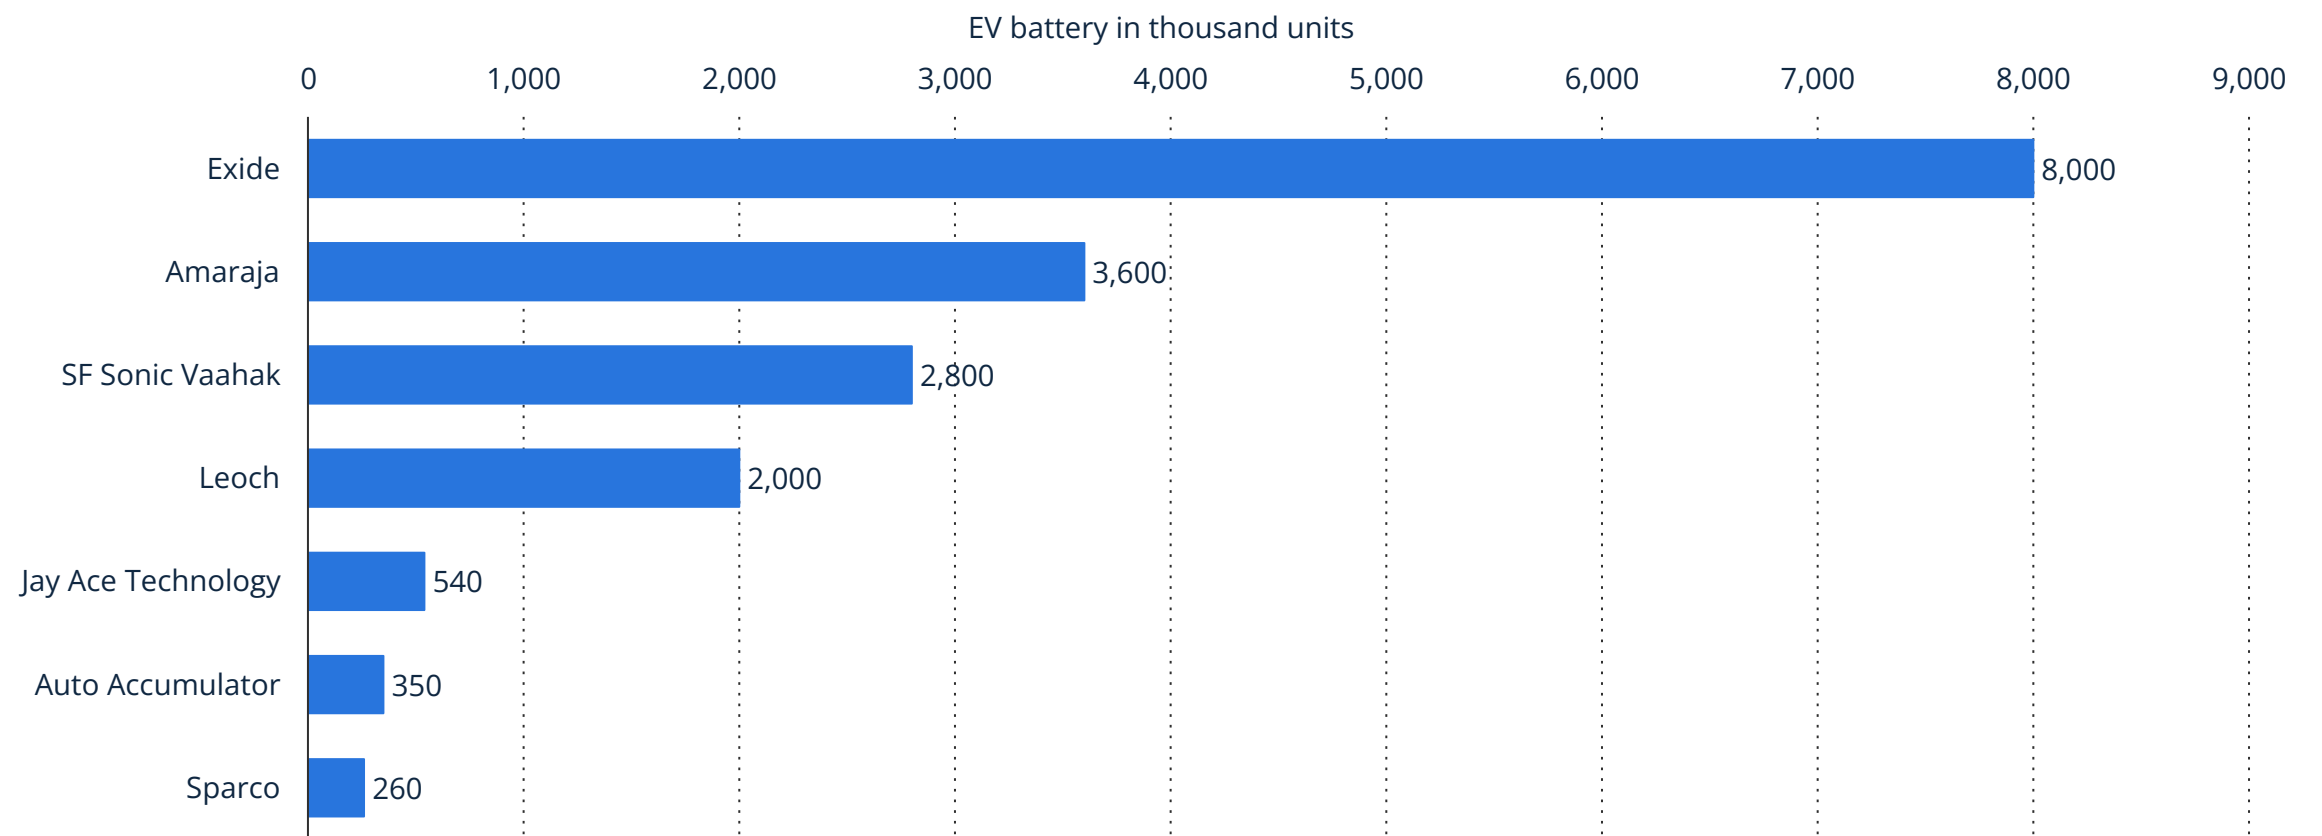

Annual manufacturing capacity of wind turbine in India as of 2024, by vendor (in megawatts)

Wind turbine annual manufacturing capacity in India 2024, by vendor

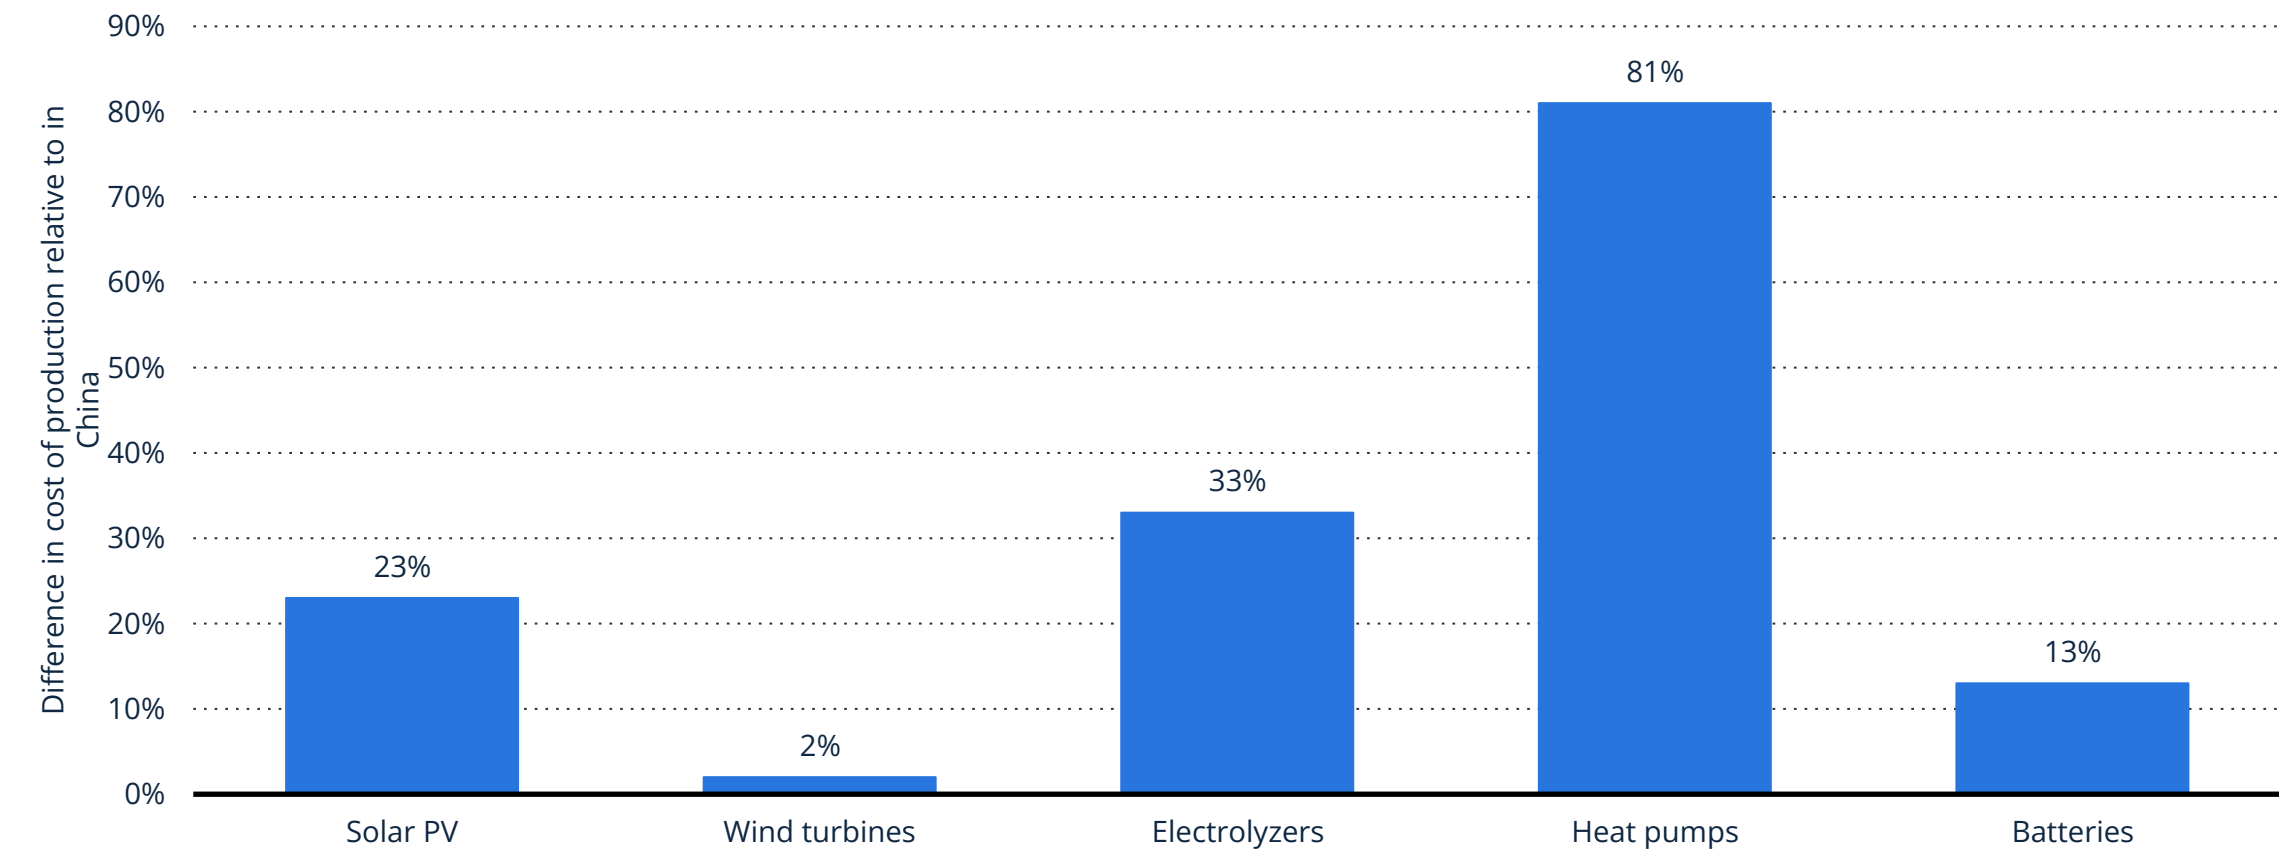

Annual electric vehicle battery production capacity in India as of March 2023, by OEM (in 1,000 units)

EV battery production capacity per year in India 2023, by OEM

Levelized cost of production for selected clean energy technologies in India compared to production costs in China in 2023 (in percent)

Cleantech manufacturing cost difference in India vs China 2023, by technology

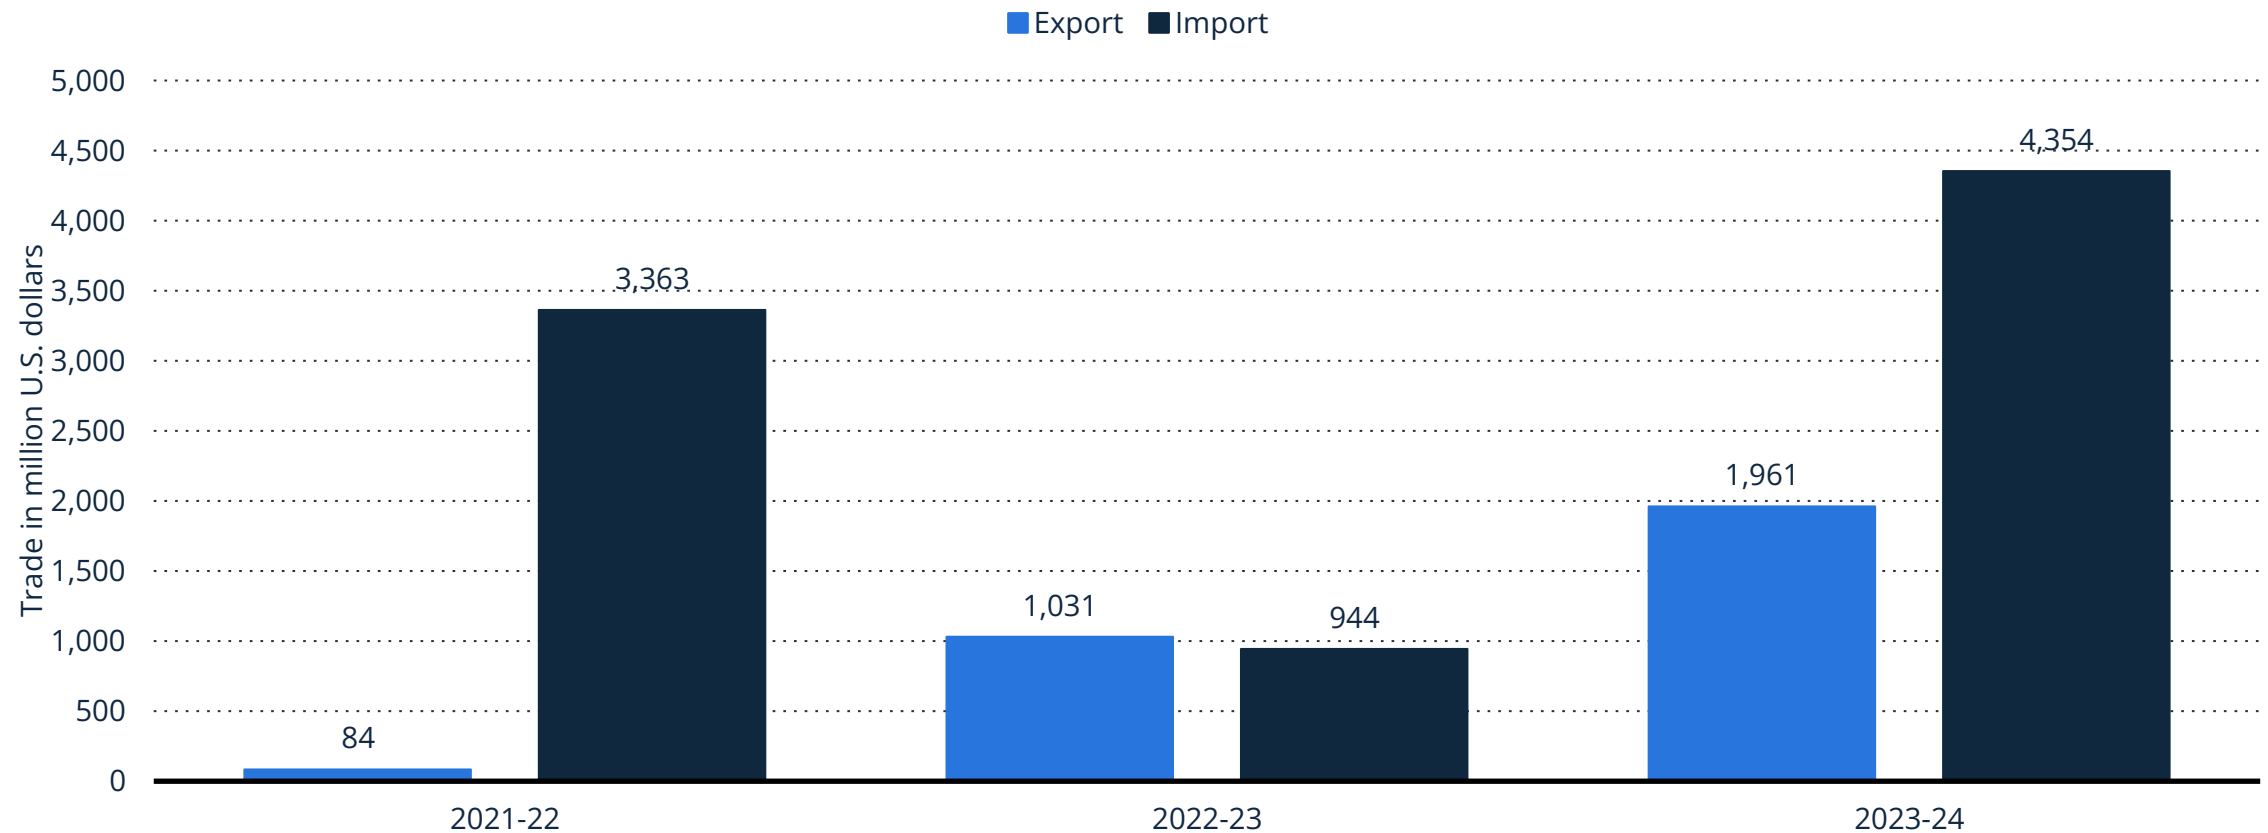

CHAPTER 04

Trade

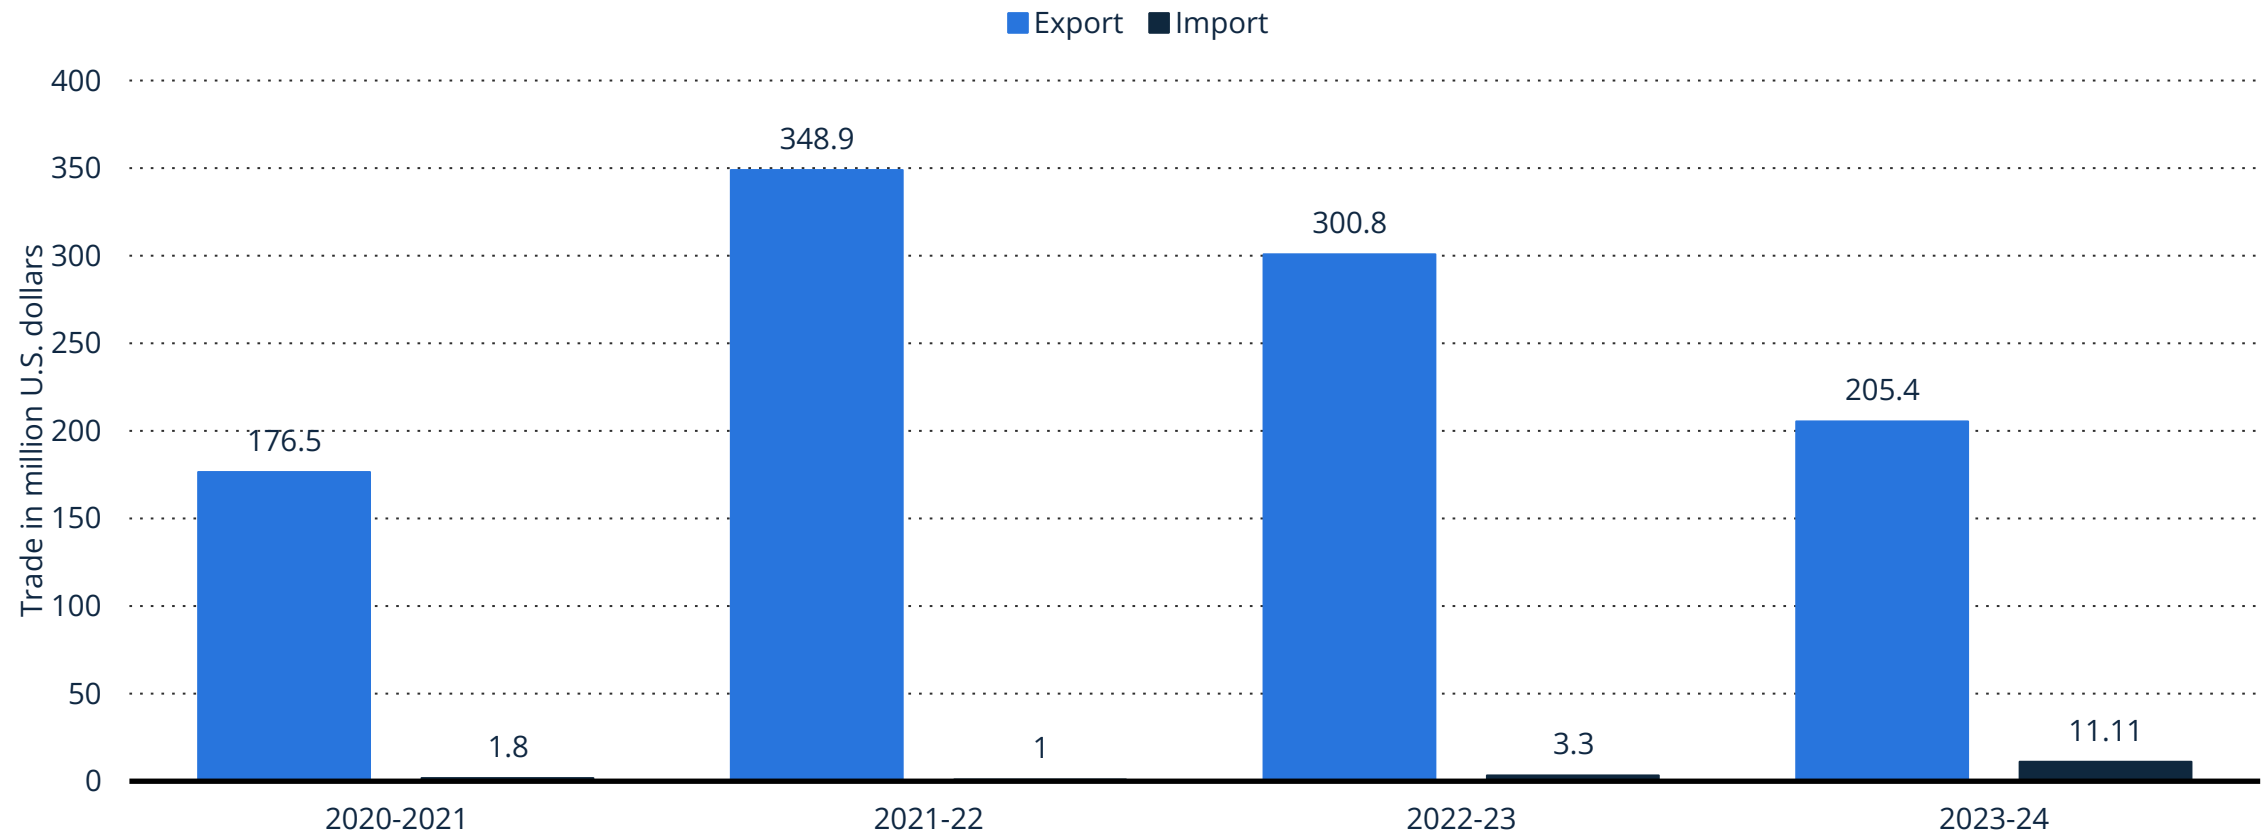

Value of solar PV module imports and exports in India from FY 2021 to FY 2023 (in million U.S. dollars)

Import and export value of solar PV modules in India FY 2021-FY 2023

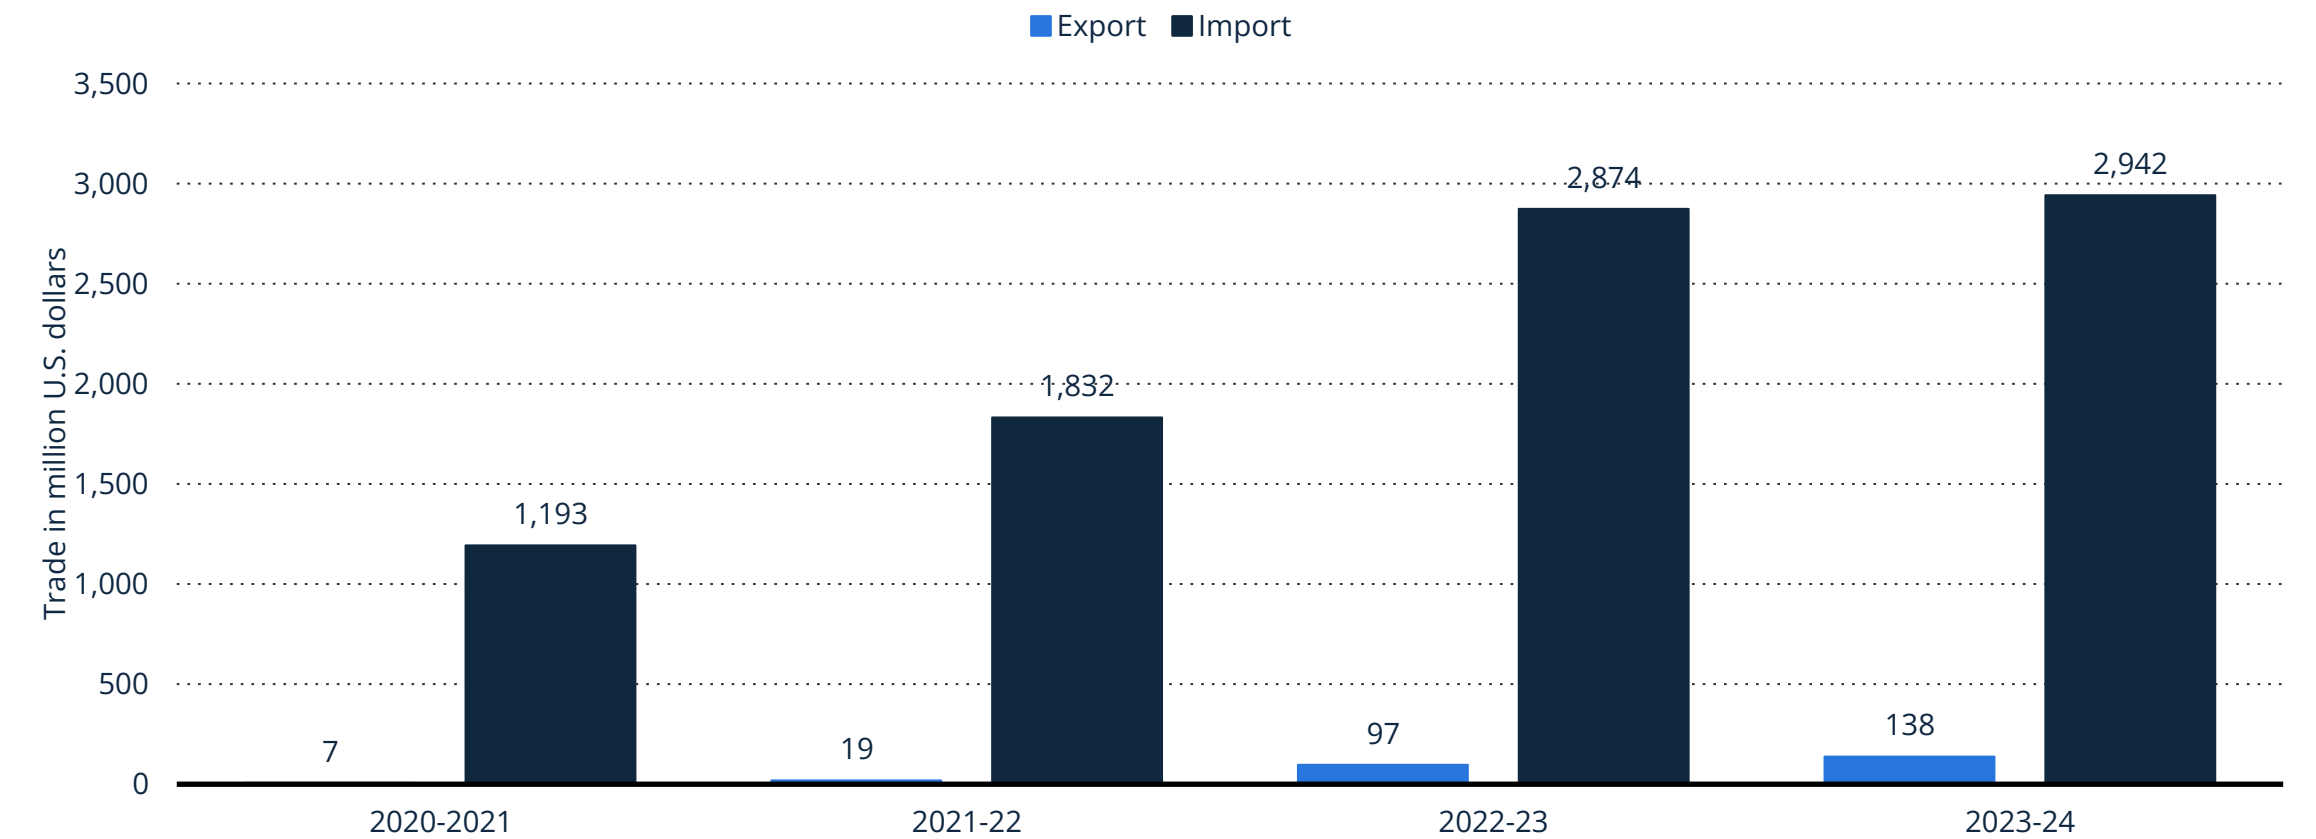

Value of wind generator imports and exports in India from FY 2020 to FY 2023 (in million U.S. dollars)

Import and export value of wind generators in India FY 2020-FY 2023

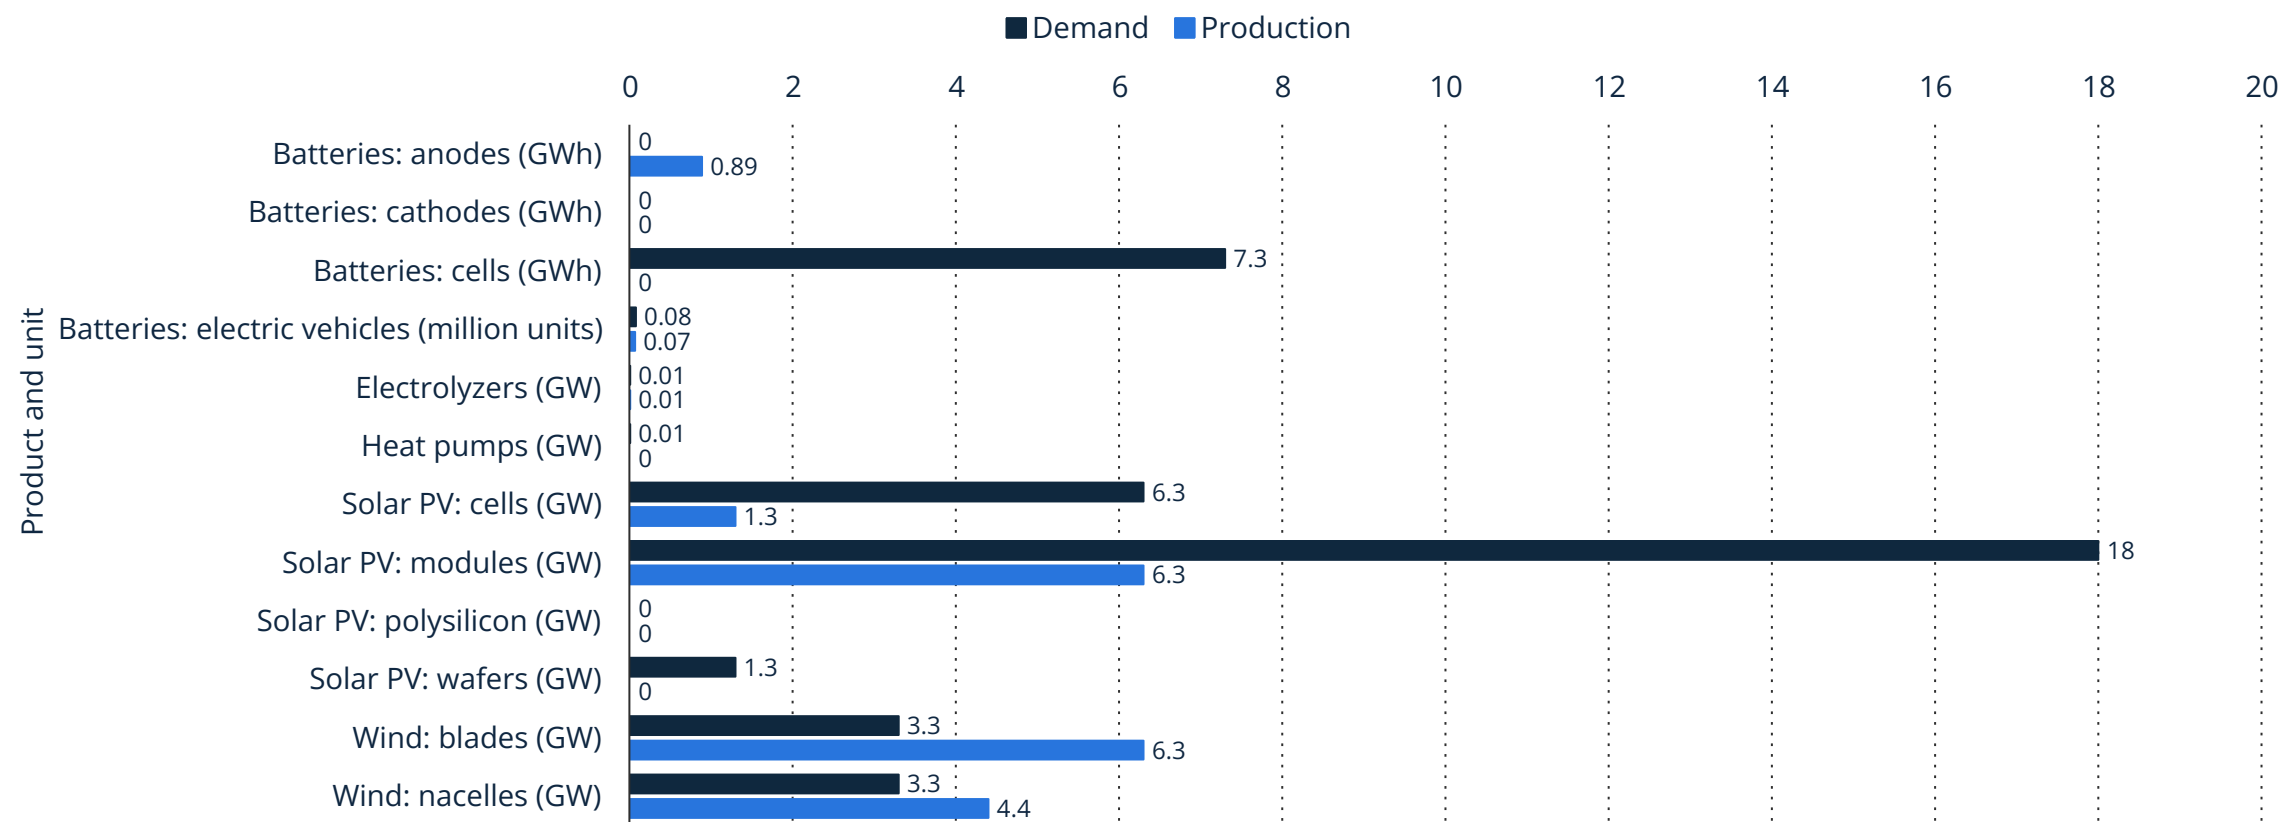

Value of lithium-ion batteries imports and exports in India from FY 2020 to FY 2023 (in million U.S. dollars)

Import and export value of lithium-ion batteries in India FY 2020-FY 2023

Production and demand of key clean technologies in India in 2023, by type

Production & demand of key clean technologies in India 2023, by type

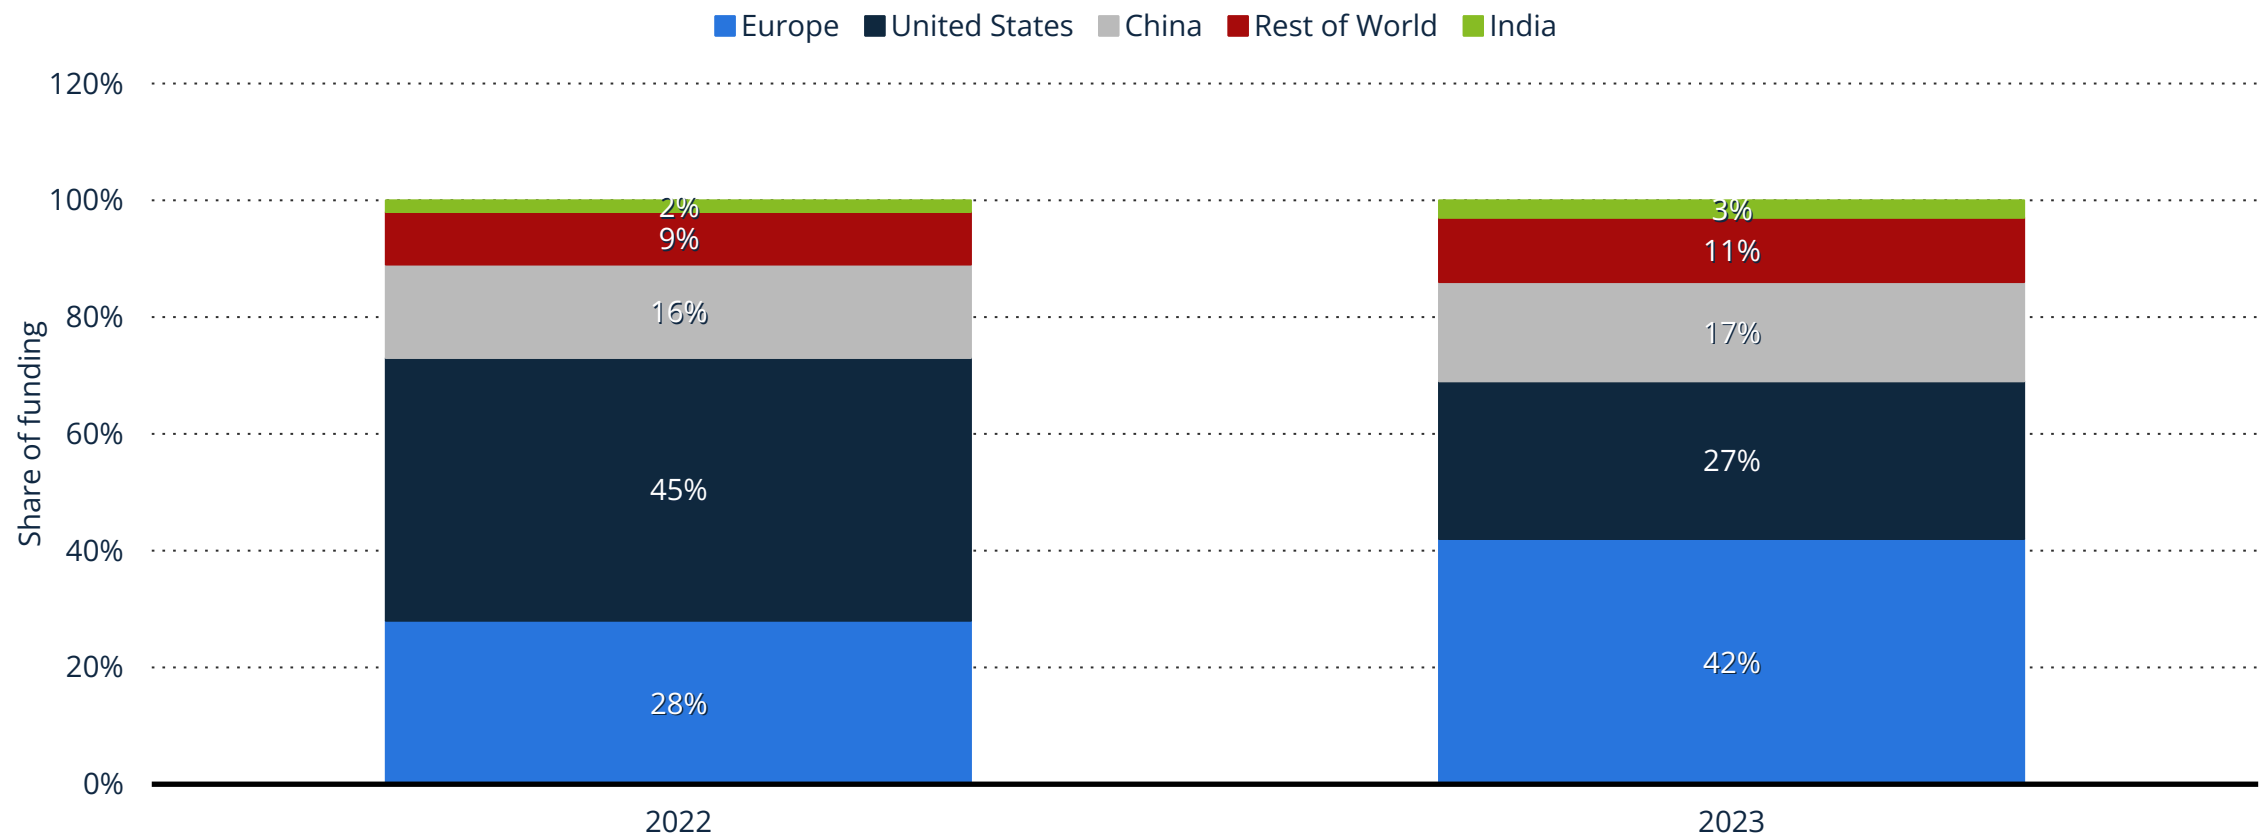

CHAPTER 05

Finance

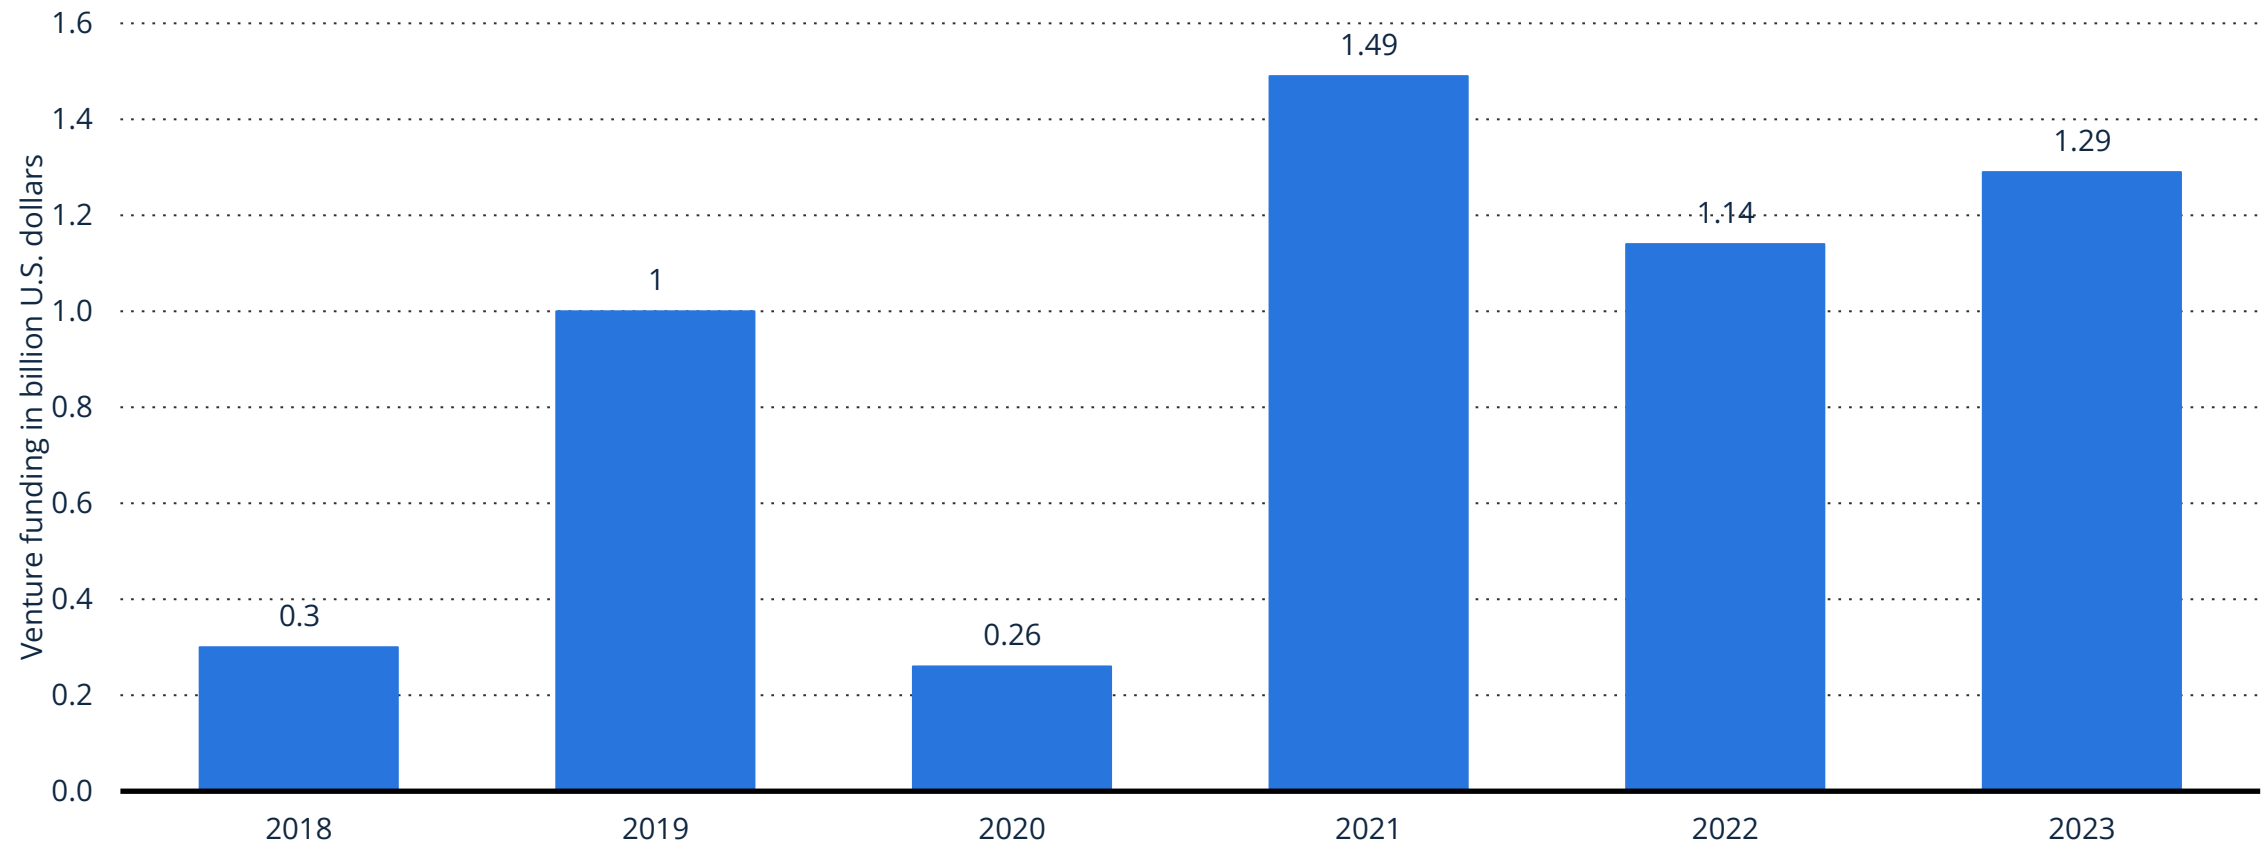

Distribution of venture capital investments in climate technology worldwide in 2022 and 2023, by region

Global share of VC funding in climate technology 2022-2023, by region

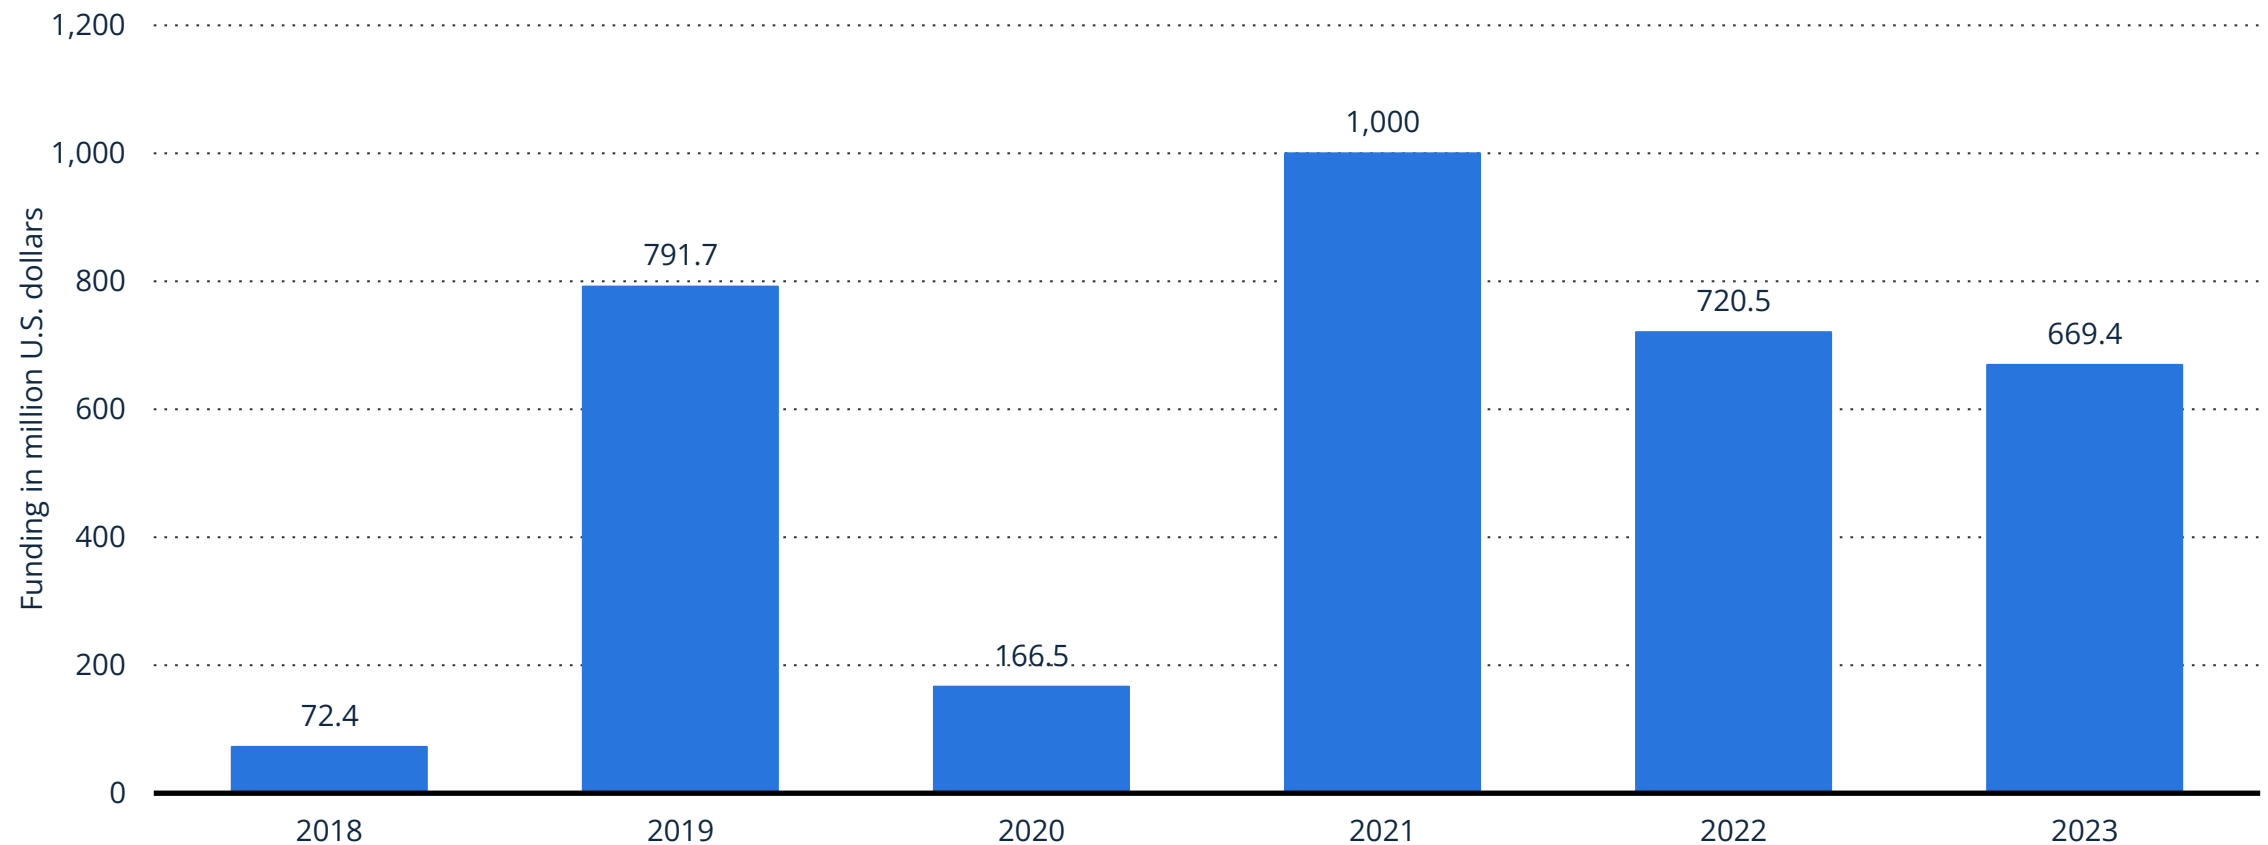

Annual climate tech venture capital investment in India from 2018 to 2023 (in billion U.S. dollars)

Climate tech venture funding in India 2018-2023

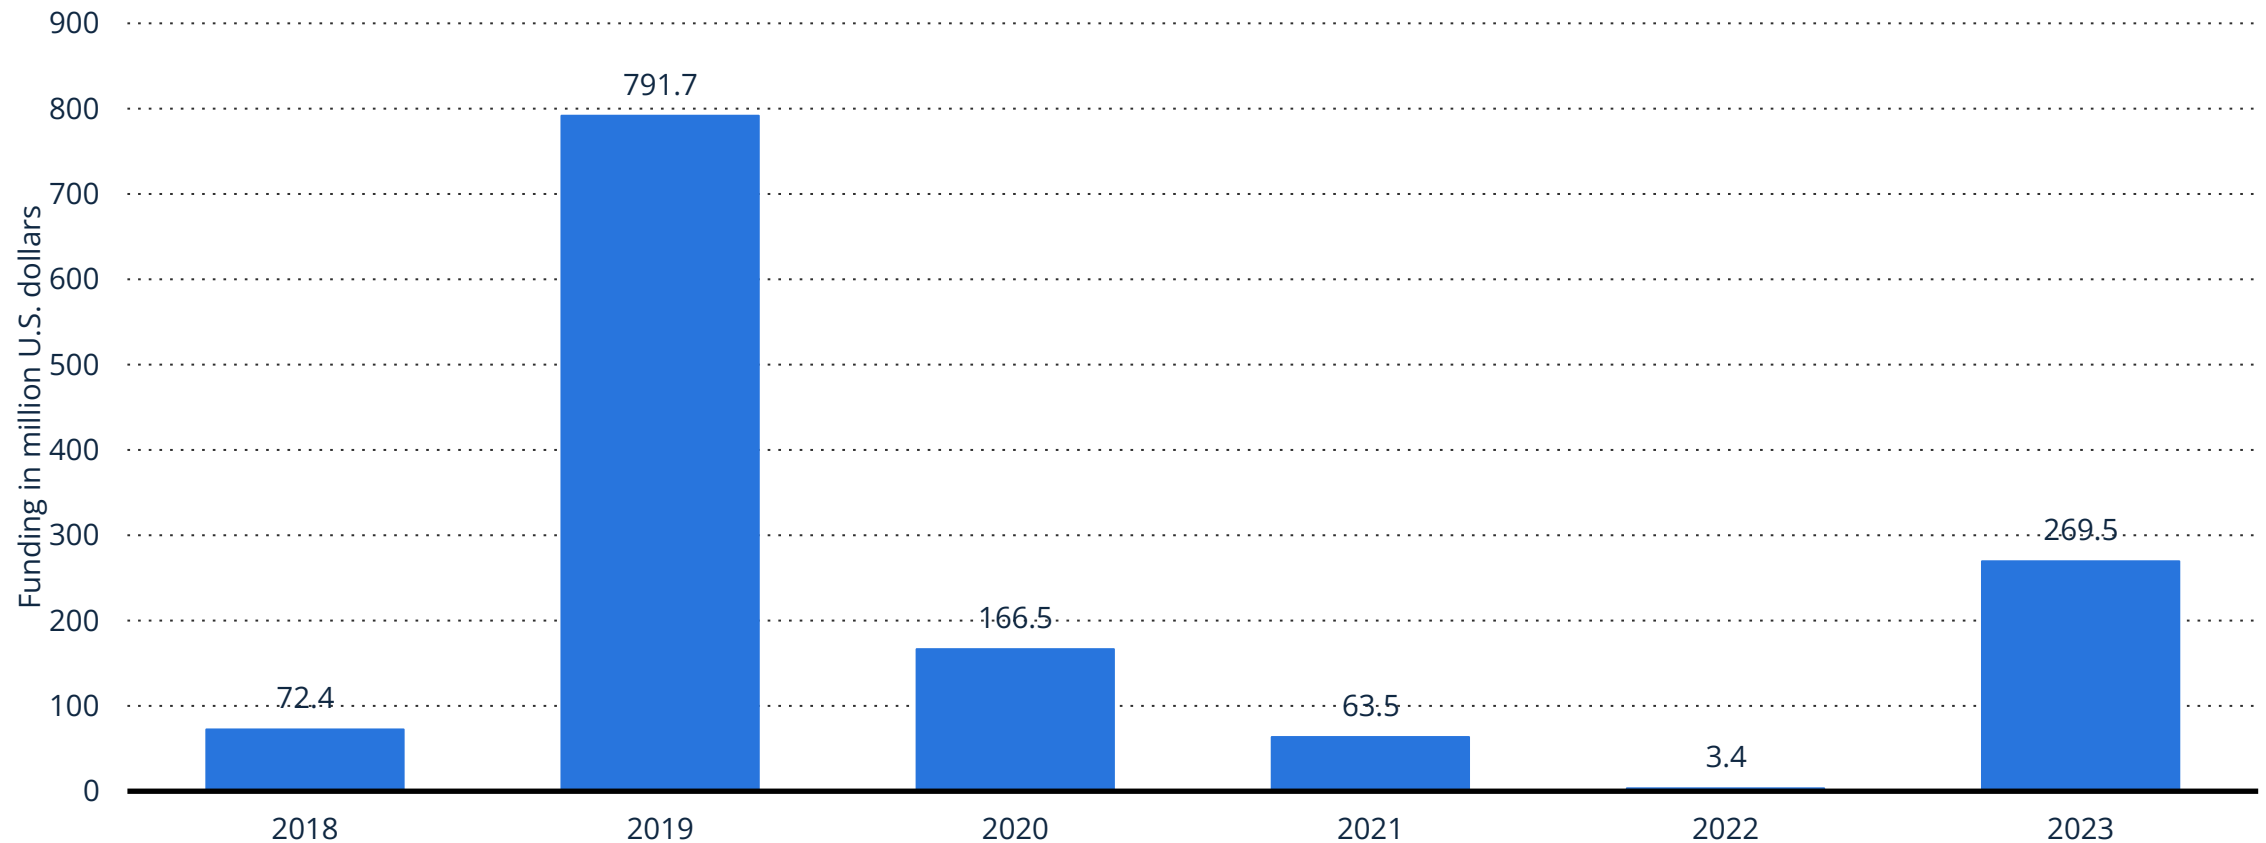

Venture capital investment into climate tech companies in Bengaluru, India from 2018 to 2023 (in million U.S. dollars)

Climate tech VC funding in Bengaluru India 2018-2023

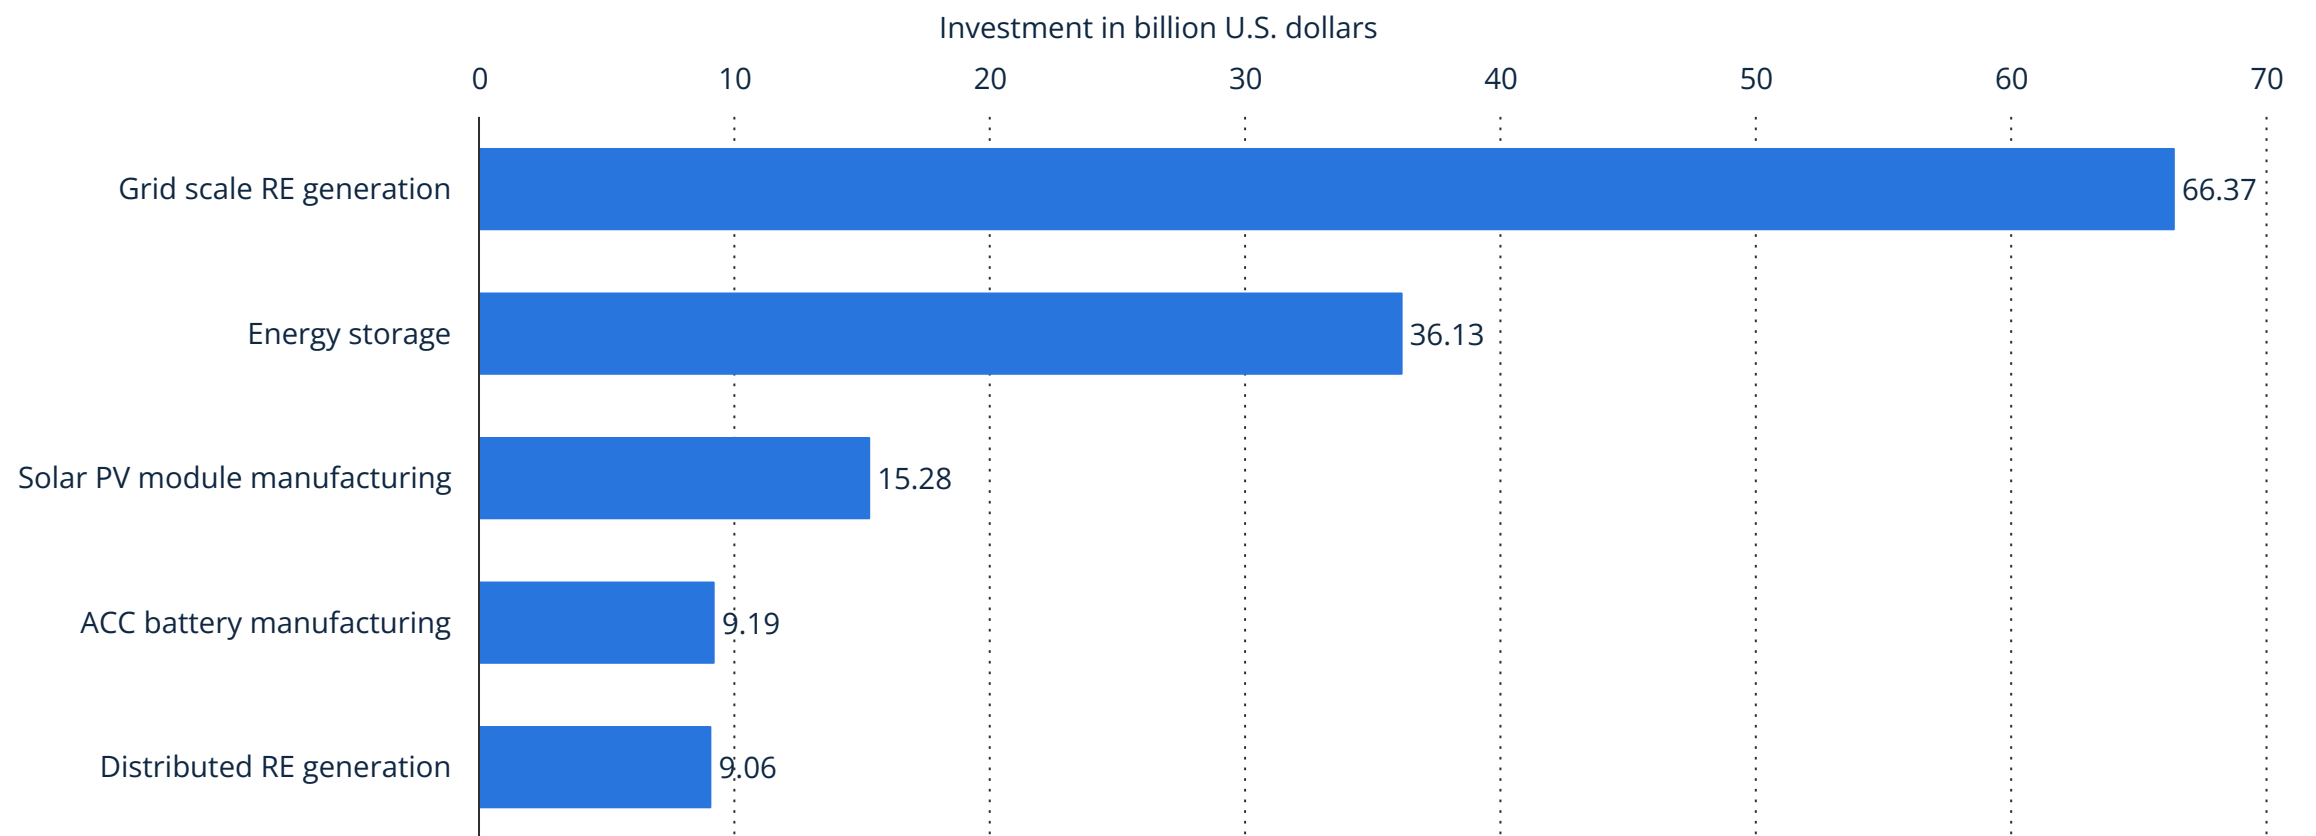

Venture capital investment into climate tech companies in Mumbai, India from 2018 to 2023 (in million U.S. dollars)

Climate tech VC funding in Mumbai India 2018-2023

Total pipeline of investments toward clean energy innovation and manufacturing in India as of 2023, by segment (in billion U.S. dollars)

Clean energy innovation & manufacturing investment pipeline in India 2023, by segment

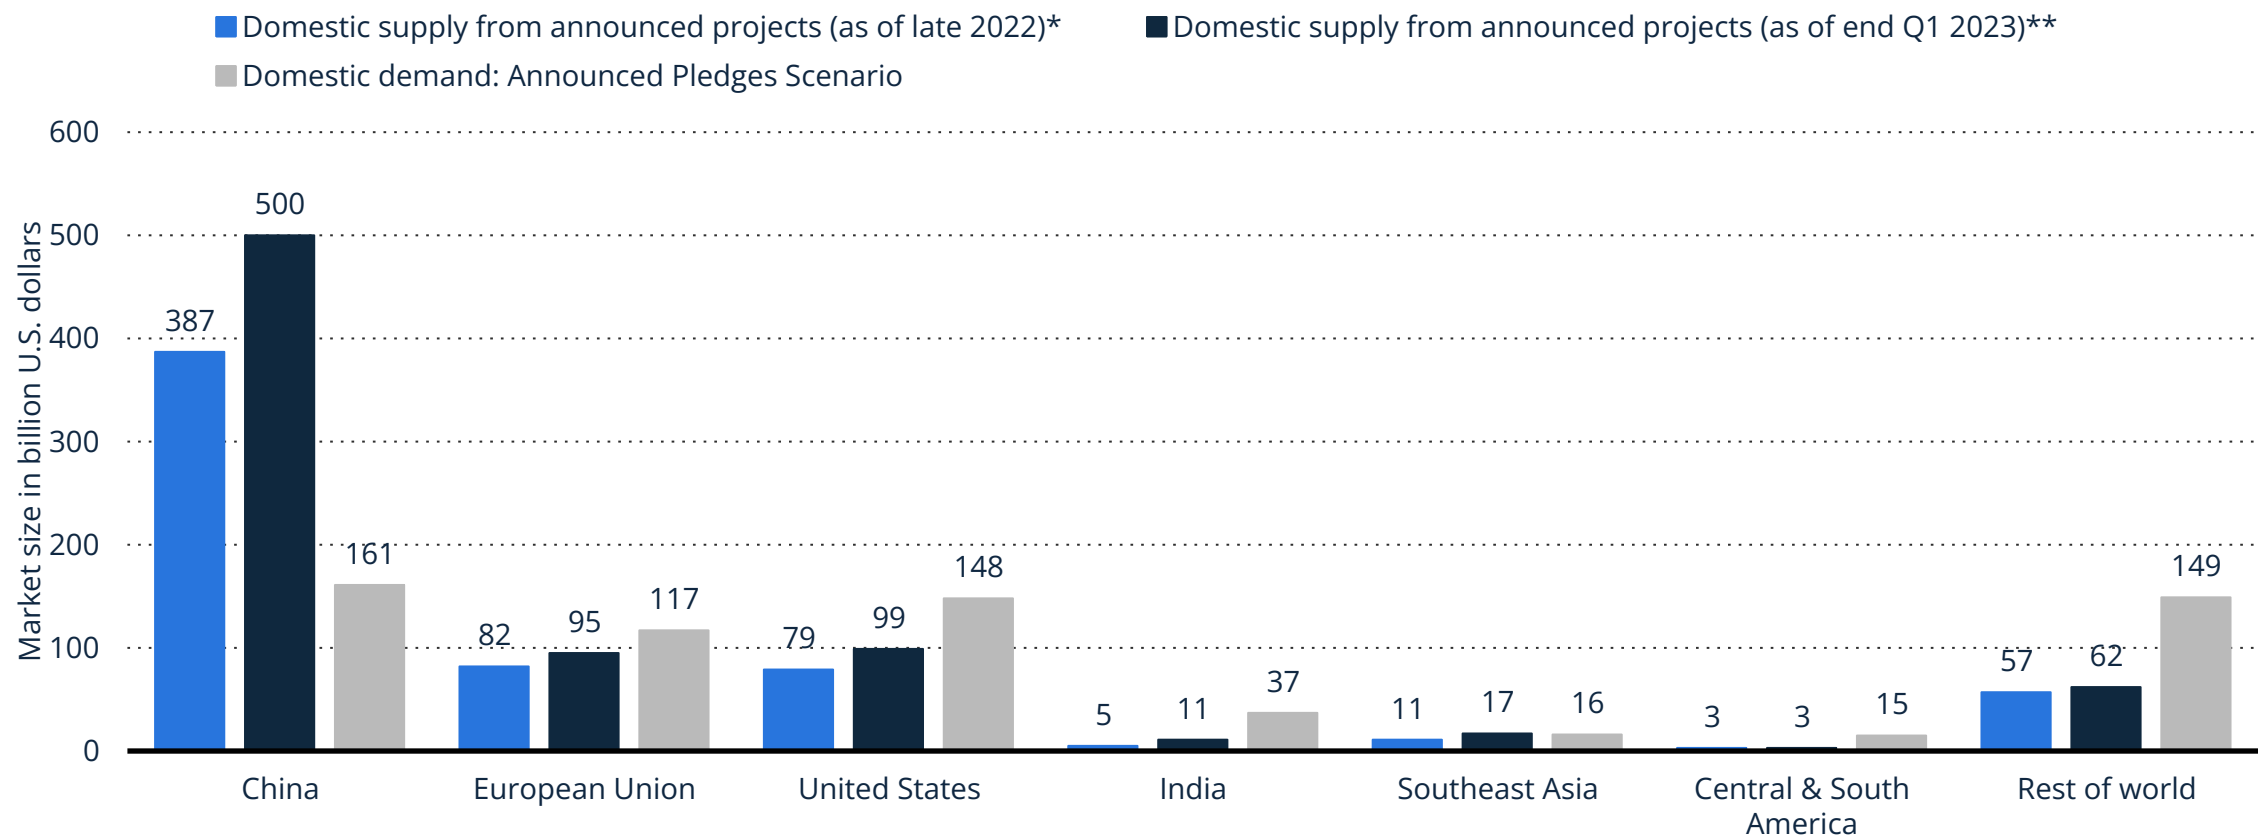

CHAPTER 06

Outlook

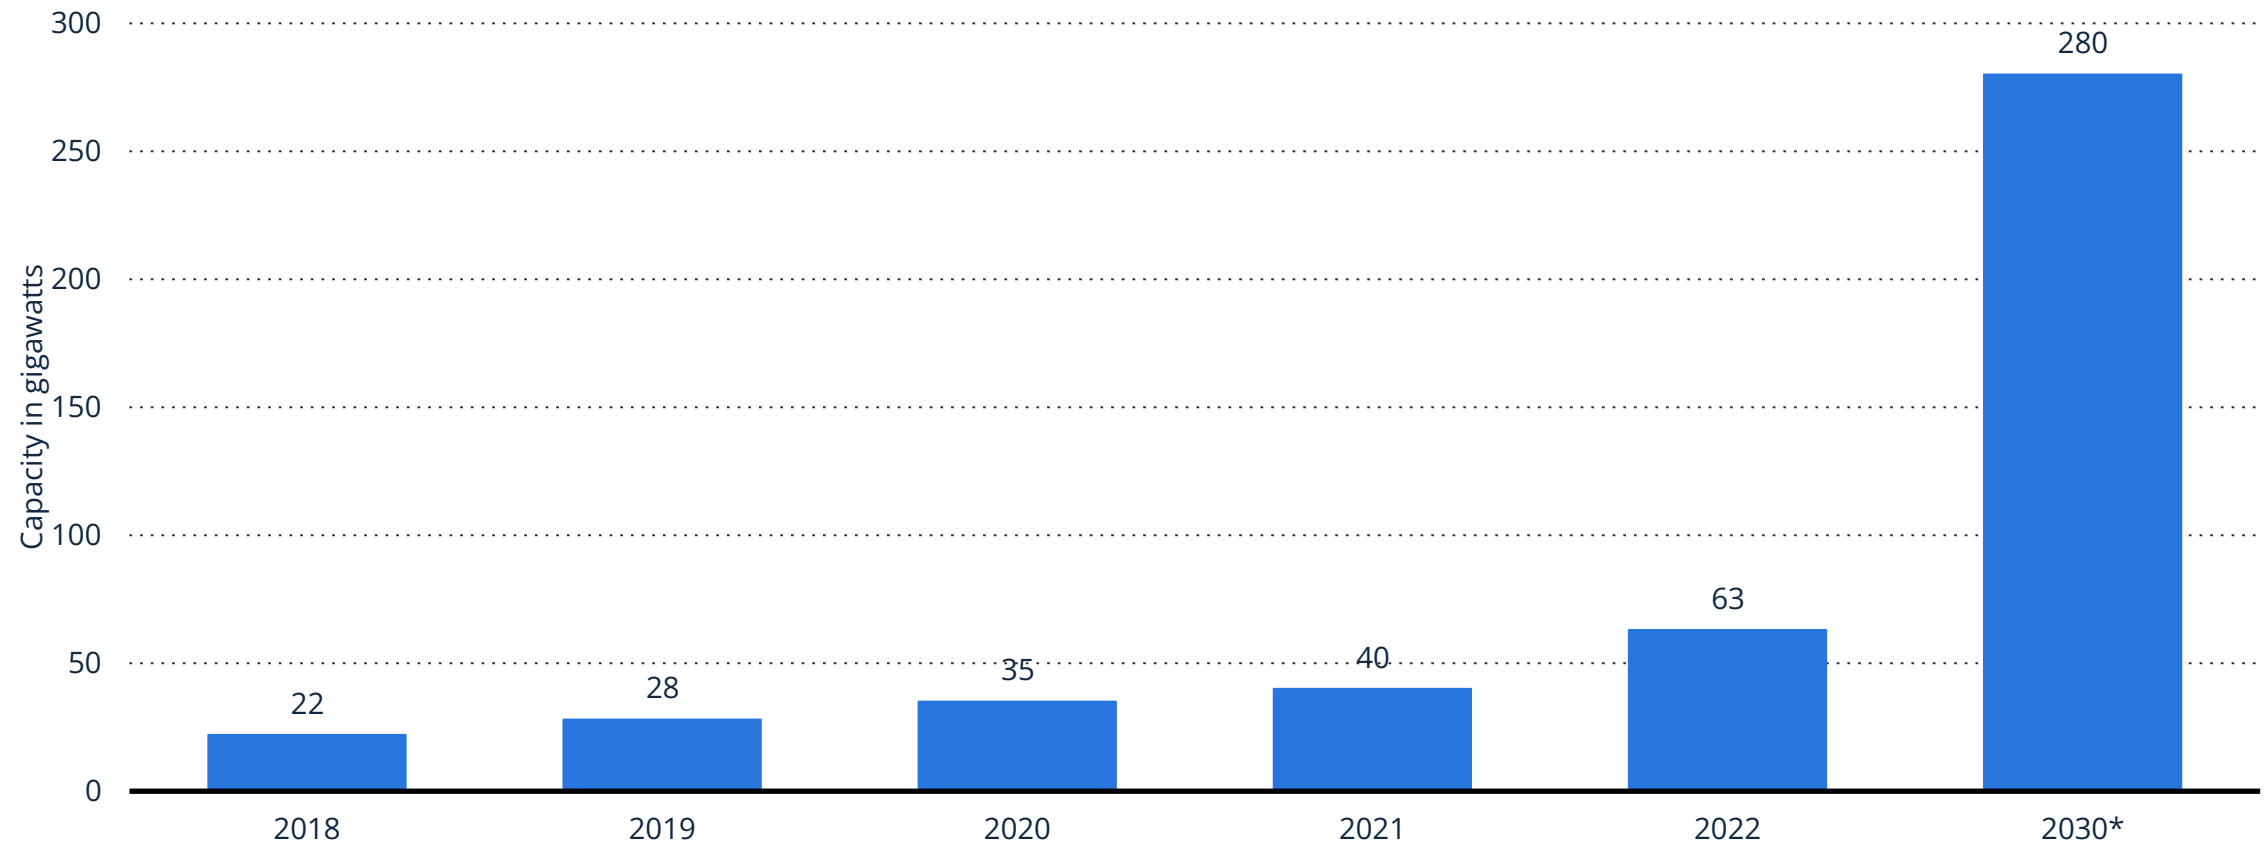

Market size for key clean energy technologies worldwide in selected countries and regions in 2030 (in billion U.S. dollars per year)

Global clean technologies market size 2030, by country and region

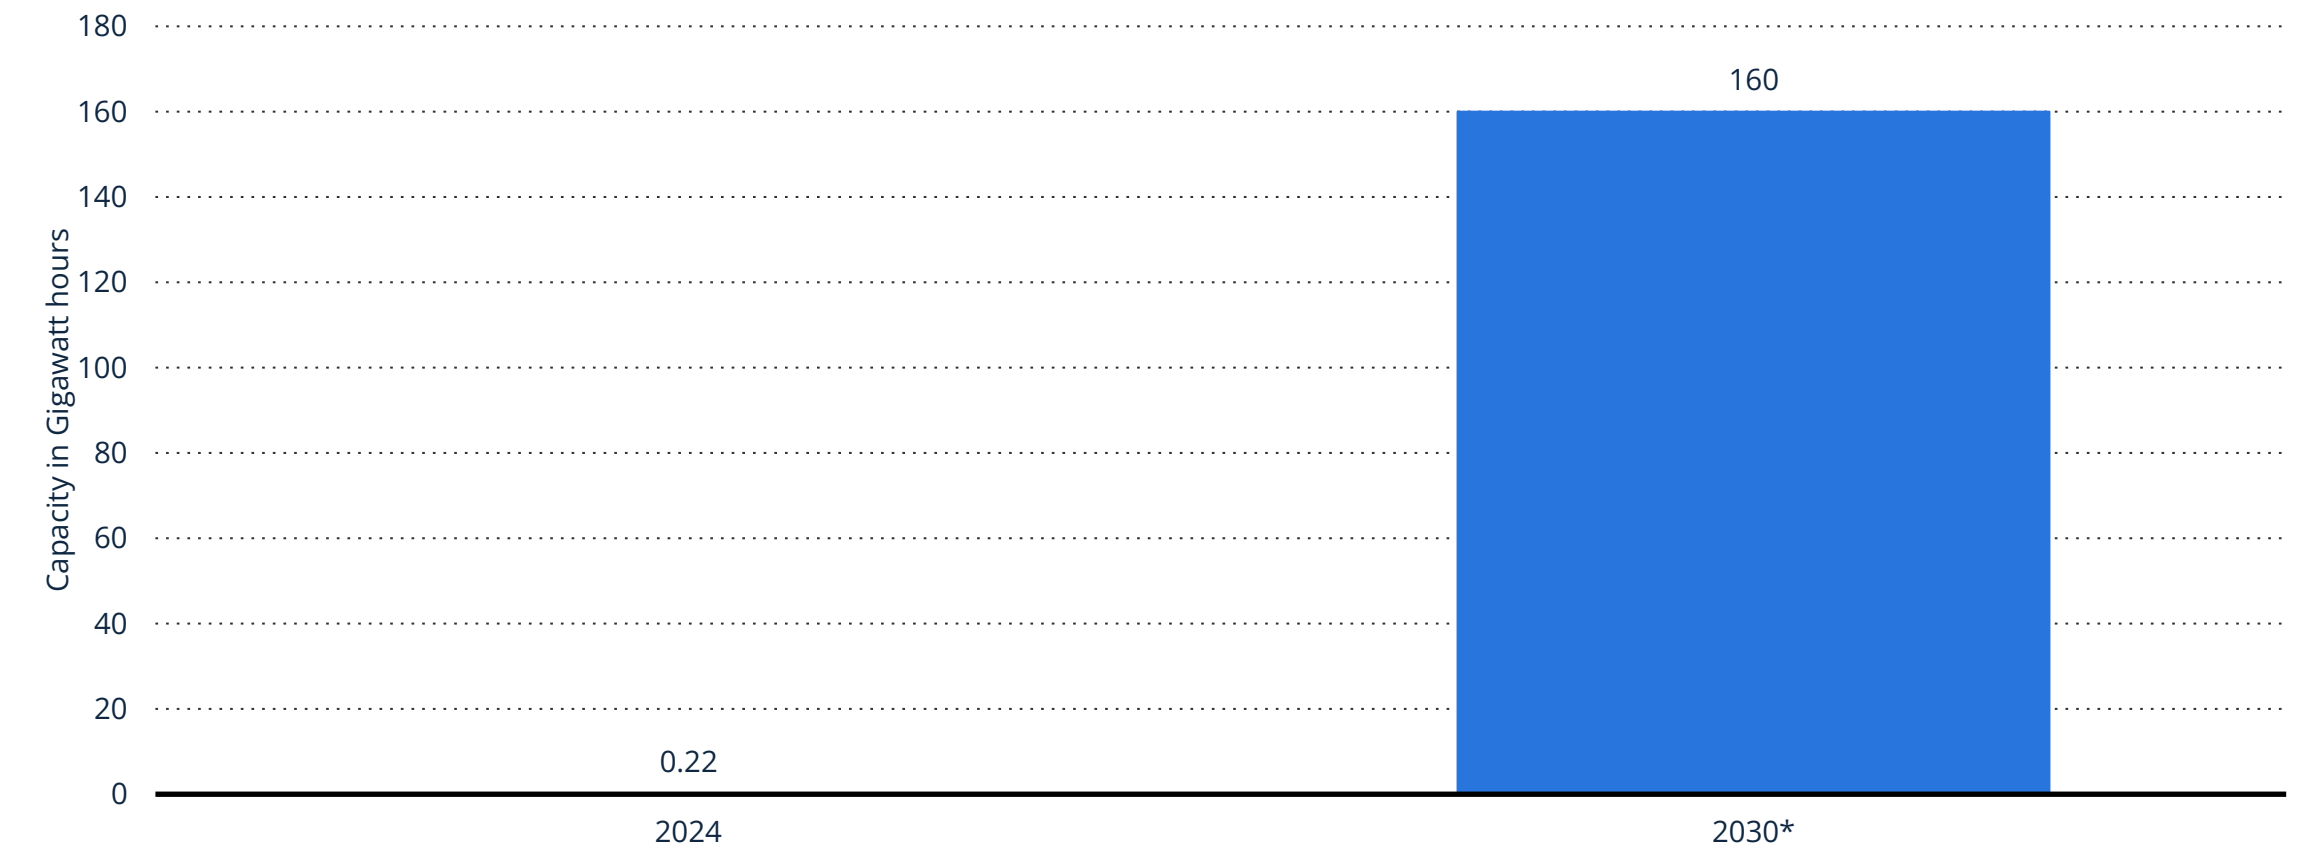

Cumulative solar power capacity installed in India from 2018 to 2022, with the targeted capacity for 2030 (in gigawatts)

Solar power capacity installations and targets in India 2018-2030

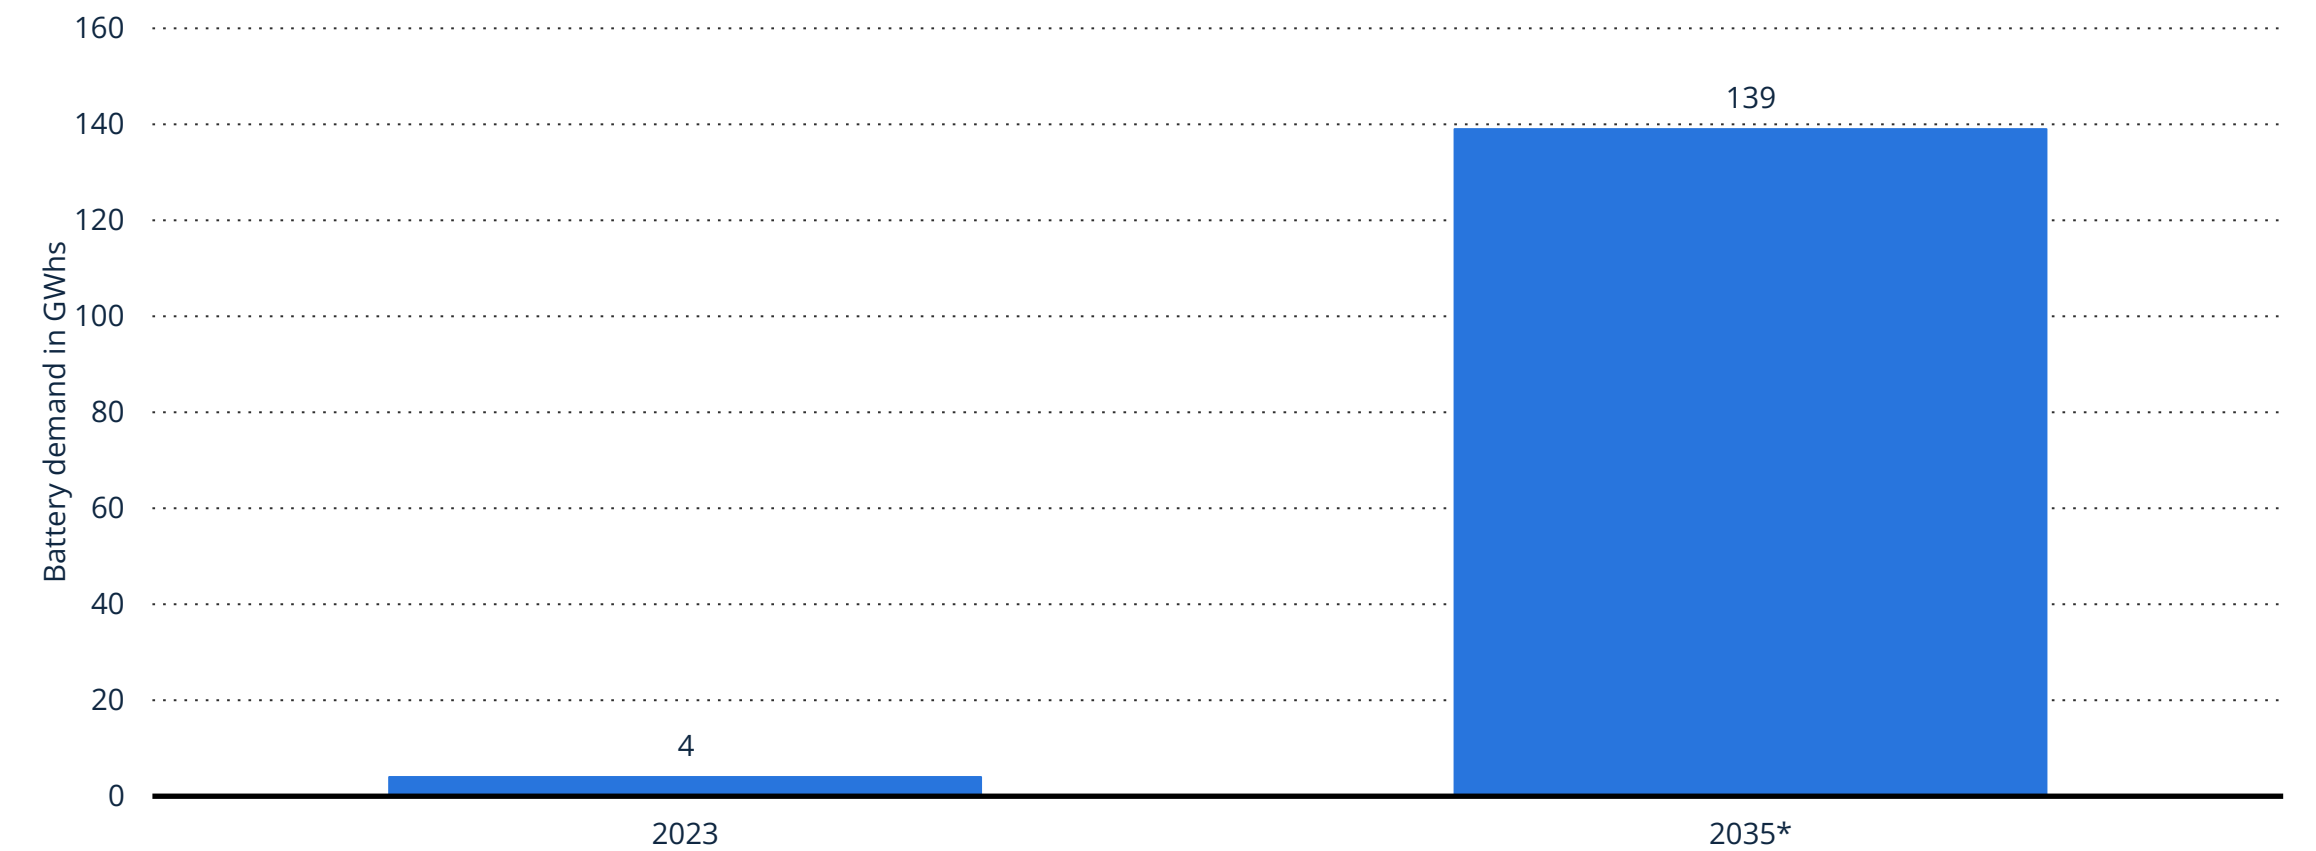

Capacity of battery energy storage system in India as of March 2024 with target for 2030 (in Gigawatt hours)

Battery energy storage system capacity in India 2024-2030

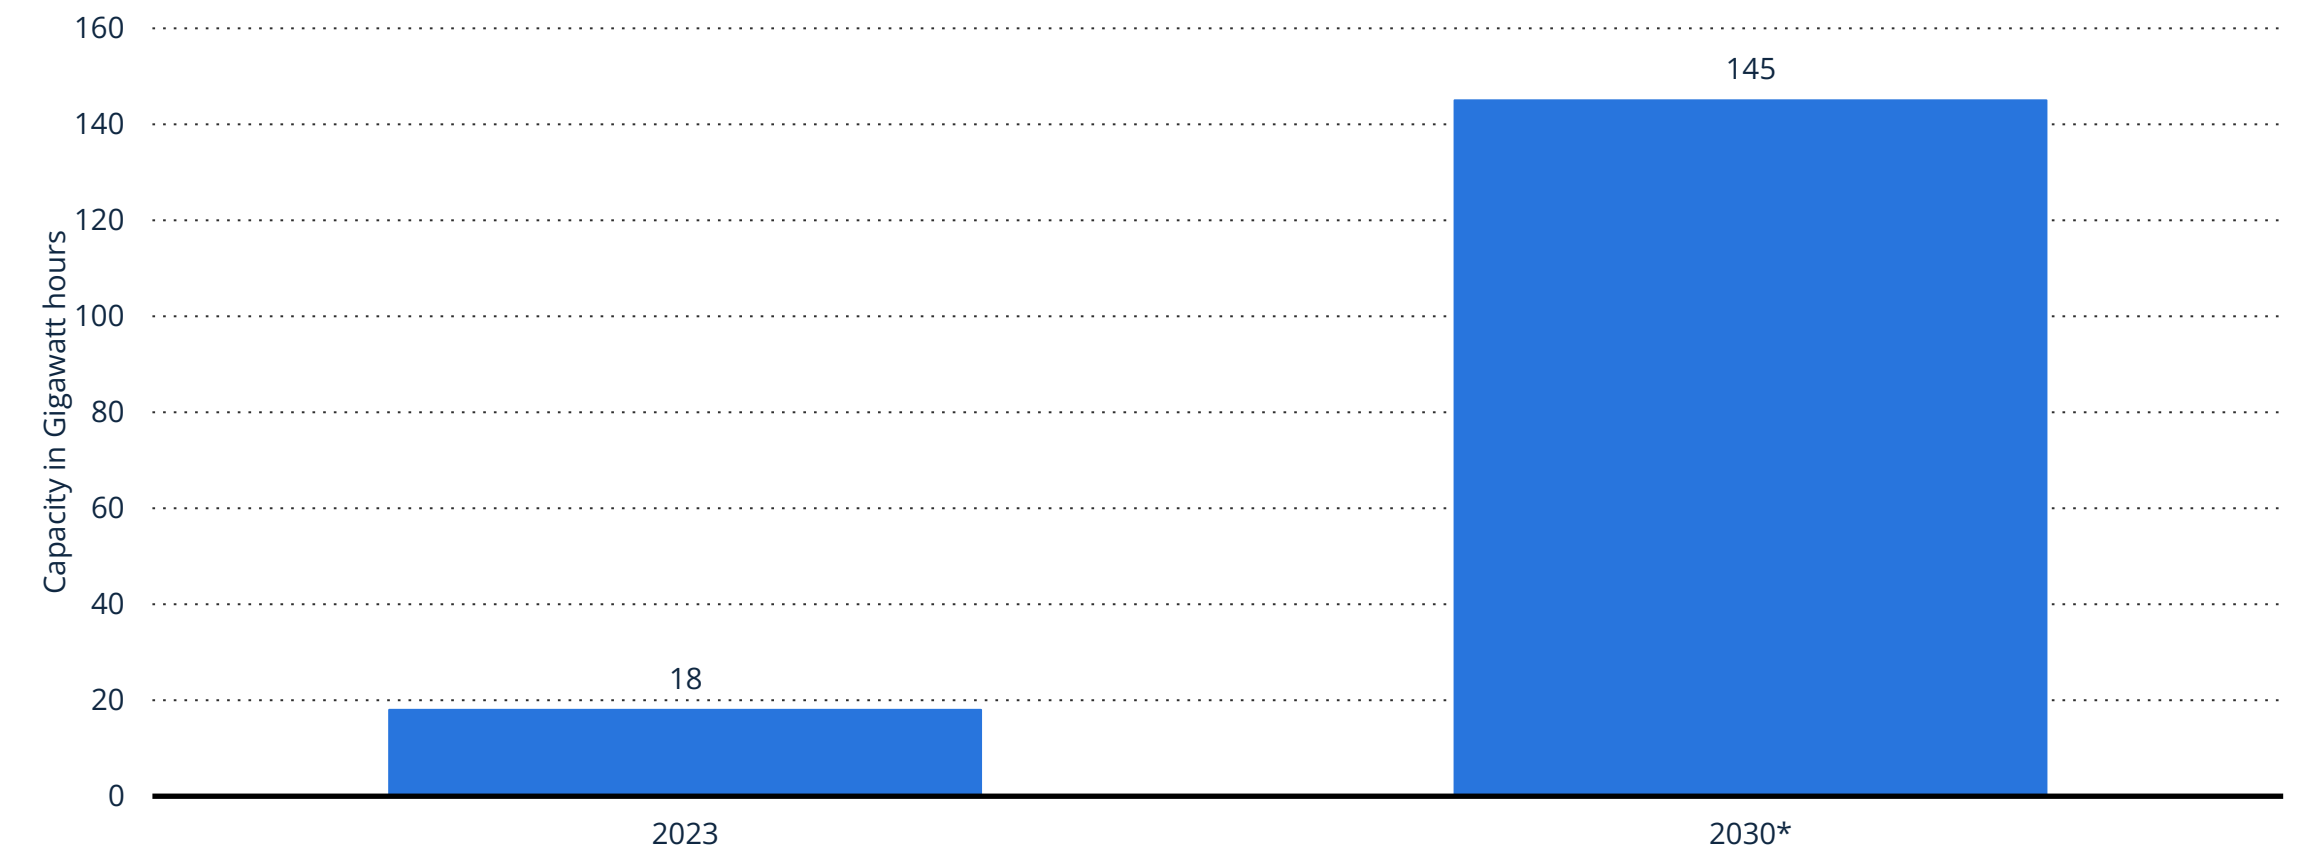

Passenger electric vehicle battery demand in India in 2023 with estimate of 2035 (in Gigawatt hours)

Passenger EV battery demand in India 2023-2035

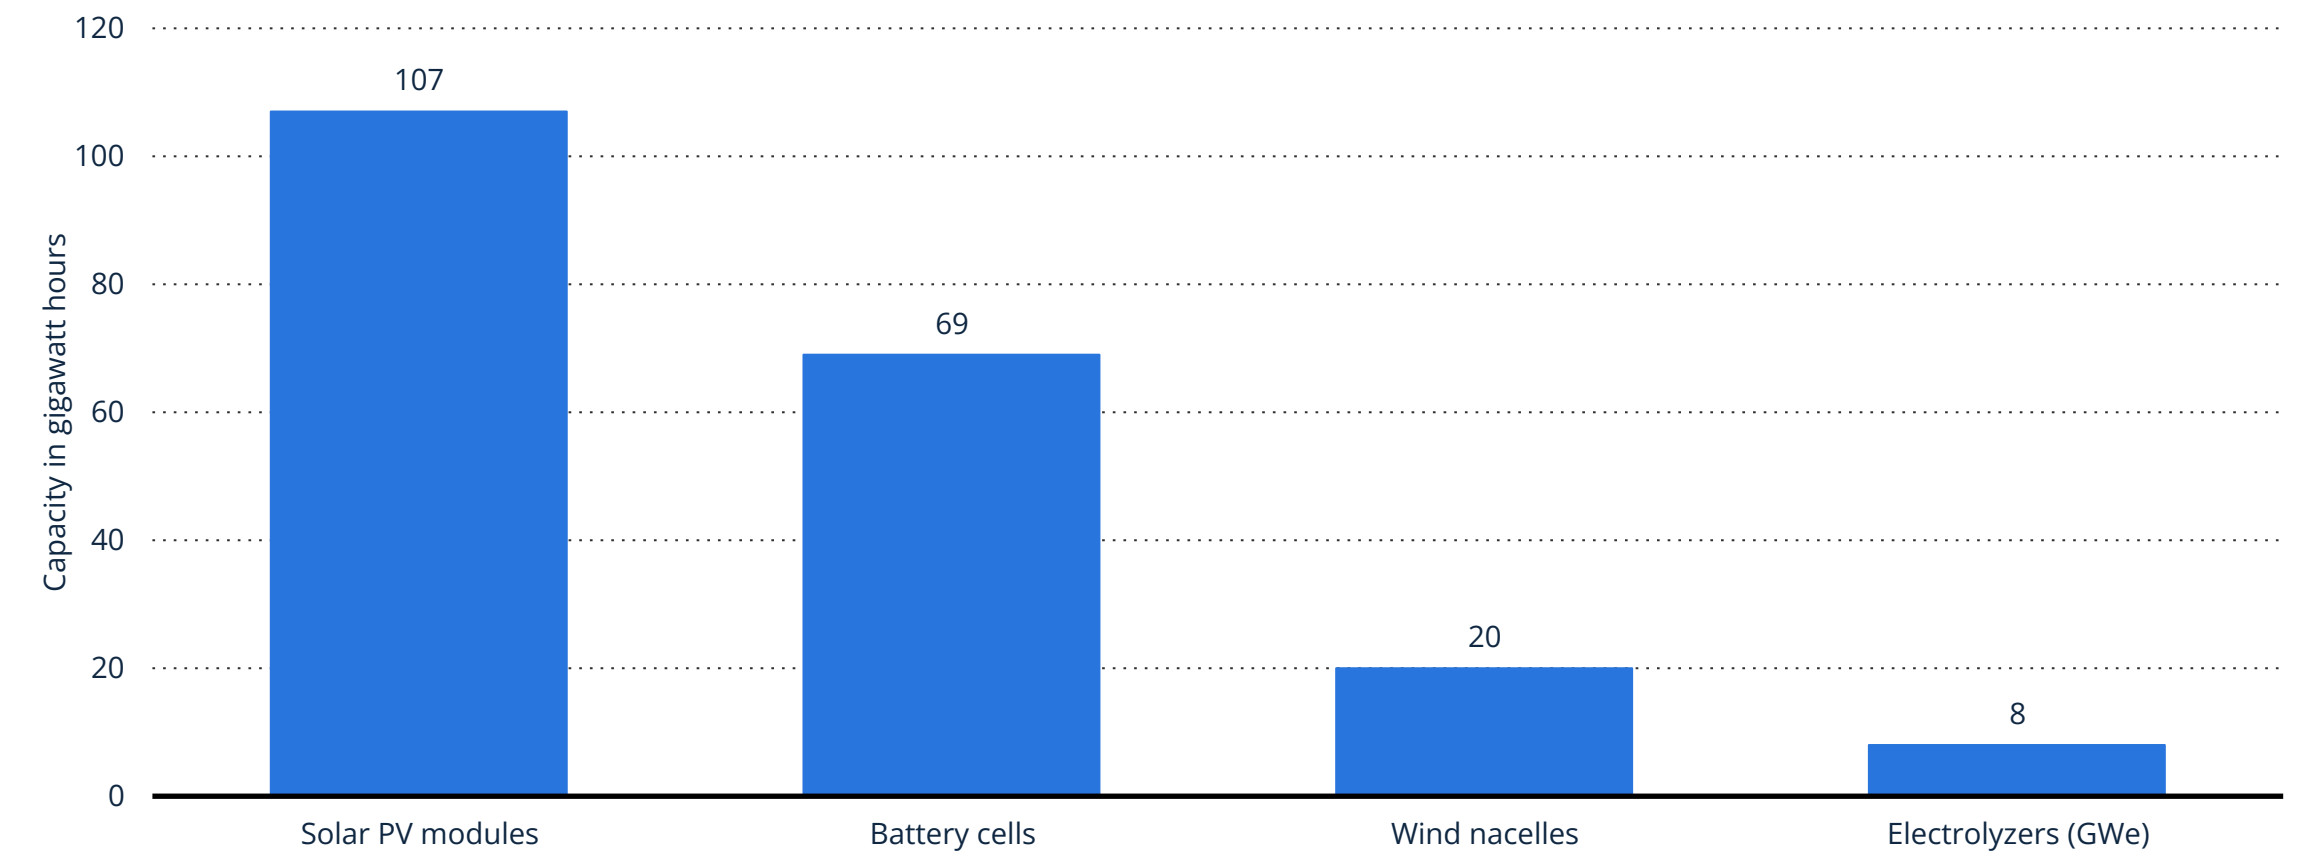

Production capacity of lithium-ion battery in India in 2023 with estimate of 2030 (in Gigawatt hours)

Lithium-ion battery production capacity in India 2023-2030

Projected capacity of selected clean energy technologies in India by 2030 (in gigawatt-hours)

India clean energy tech capacity projections 2030, by product
